In 2012, Samuel Zuder (*1965) set out to one of the most fascinating places in the world. According to legend, the yogi Milarepa was the only one to have scaled it in the twelfth century, although thousands of pilgrims circumambulated it: Mount Kailash--also known as the "Jewel of Snow" due to its unusually symmetrical form--in the middle of the rocky desert of Tibet's Changthang plateau. Venerated by four religious orientations--Hinduism, Buddhism, Jaina, and Bön--the photographer harnessed the magnetism of this site, its promise of happiness and enlightenment, in his images. With his large-format, analogue camera, Zuder accompanied pilgrims over a period of several weeks on their approximately fifty-three-kilometer-long path around Mount Kailash--which they regard as the origin of the world--to capture its silent grandeur.

Beginning with babies, the book is divided into sections on childhood, growing up, making a living and making love, family life, getting older, and approaching death, ending with poems of mourning and commemoration. Overtourism has become a major concern for an increasing number of destinations as tourism numbers continue to grow, stimulated by general economic and technological growth and the expansion of the global middle class. This, coupled with relentless promotion of tourism by many organisations and destinations, has increased tourism, despite growing opposition to excessive development. This book is the first academic volume to deal with this topic and contains chapters by experienced researchers in the tourism field, taking a multidisciplinary approach to review and explain the subject. The introductory section begins with an overview of the current situation and the forces enabling the appearance of overtourism. This is followed by a number of case studies from a range of destinations around the world, both urban and rural, which share the same problems. The concluding section includes a discussion of potential mitigation methods and approaches and a final assessment of future developments. The focus and relevance of this book are not just for academics, as it offers insights into destinations, enablers and solutions for how to address the issue of overtourism on a wide variety of scales. This book offers globally relevant perspectives on destinations as varied as Venice and Barcelona, that have gained global media attention, as well as less publicised rural areas and developing destinations.

Sprachliche Zweifelsfälle begegnen uns auf allen Sprachebenen und laden zur Sprachreflexion ein. Aus diesem Grund bieten sie die Möglichkeit des Austausches zwischen Sprachwissenschaft, Sprachdidaktik und Laienlinguistik. Dieser Sammelband widmet sich daher gleichermaßen der linguistischen und sprachdidaktischen Perspektive auf Zweifelsfälle sowie dem Umgang mit Zweifelsfällen in der breiten Öffentlichkeit. Dabei setzt er vier Schwerpunkte: Erstens liegt der Fokus auf einer adäquaten Definition des Gegenstands, zweitens erproben viele Beiträge unterschiedliche Methoden, die zur Identifikation der Zweifelsfälle genauso beitragen wie zur Aufdeckung der sprachreflektorischen und soziolinguistischen Mechanismen, die Zweifel (re-)produzieren. Die Analyse ausgewählter Zweifelsfälle beschränkt sich drittens nicht auf das Deutsche, sondern bringt exemplarisch Zweifelsfälle im Englischen und Katalanischen in die Diskussion ein. Das vierte Anliegen des Bandes ist es, Ansätze zur Implementierung des linguistischen Wissens in den laienlinguistischen Diskurs sowie in die schulische Praxis vorzuschlagen.

Precision medicine is rapidly becoming the standard-of-care for the treatment of cancer patients. This is made possible, in part, by the ready availability and reasonable costs of comprehensive DNA and RNA sequencing assays. However, precision medicine is complex and incorporates entirely new types of data and treatment paradigms that are outside of the training of most oncologists in practice today. Precision Medicine Oncology: A Primer is a concise review of the fundamental principles and applications of precision medicine, intended for clinicians, particularly those working in oncology. It provides an accessible introduction to the technological advances in DNA and RNA sequencing, gives a detailed overview of approaches to the interpretation of molecular test results and their point-of-care implementation for individual patients, and describes innovative clinical trial designs in oncology as well as characteristics of the computational infrastructures through which massive quantities of data are collected, stored, and used in precision medicine oncology.

In its first edition, Global Trends in Mediation was the first book to concentrate on mediation from a comparative perspective - reaching beyond the all-too-familiar Anglo-American view - and as such has enjoyed wide practical use among alternative dispute resolution (ADR) practitioners worldwide. This new edition has not only been updated throughout; it has also added two new jurisdictions (France and Quebec) and a very useful comparative table summarising the salient points from each of the fourteen jurisdictional chapters. Each jurisdictional chapter addresses critical structural and process issues in alternative dispute resolution such as the institutionalisation of mediation, mediation case law and legislation, the range and nature of disputes where mediation is utilised, court-related mediation, mediation practice standards, education, training and accreditation of mediators, the role of lawyers in mediation, online dispute resolution and future trends. All the contributors are senior dispute resolution academics or practitioners with vast knowledge and experience of dispute resolution developments in their countries and abroad.

This is the first published collection of critical essays on the work of Kate Grenville, one of Australia's most important contemporary writers. Grenville has been acclaimed for her novels, winning numerous national and international prizes including the Orange Prize for Fiction and the Commonwealth Writers' Prize. Her novels are marked by sharp observations of outsider figures who are often under pressure to conform to society's norms. More recently, she has written novels set in Australia's past, revisiting and re-imagining colonial encounters between settlers and Indigenous Australians. This collection of essays includes a scholarly introduction and three new essays that reflect on Grenville's work in relation to her approach to feminism, her role as public intellectual and her books on writing. The other nine essays provide analyses of each of her novels published to date, from the early success of *Lilian's Story* and *Dreamhouse* to the most recently published novel, *The Lieutenant*. Her work has been the subject of some debate and this is reflected in a number of the essays published here, most particularly with regard to her most successful novel to date, *The Secret River*. This intellectual engagement with important contemporary issues is a mark of Grenville's fiction, testament to her own analysis of the vital role of writers in uncertain times. She has suggested that OC writers have ways of going into the darkest places, taking readers with them and coming out safely. This volume attests to

GrenvilleOCO's own significance as a writer in a time of change and to the value of her novels as indices of that change and in OC lighting dark places.OCO" Simon. Flight from the USSR, the first novel from one of Georgia's most famous author, Dato Turashvili, was originally published in Georgia in 1988. Since then, it has been adapted as a stage play entitled "Jeans Generation" and translated into German, Dutch, Italian, Greek and Croatian; receiving brilliant reviews everywhere. The novel is based upon an electrifying and tragic event in 1983. Gega Kobakhidze, a young actor, and seven friends hijack an airplane heading from Tbilisi to Leningrad. They desperately want to flee from the USSR and go to Turkey. They fail, are imprisoned and a number are killed. All of Georgia and the world were caught up in these events. Turashvili is a master of drama, with a precise and compelling sense of dialogue, his characterizations are complex but powerful, his story--line is totally engrossing, and we do not want to believe the inevitable and disastrous conclusion. He weaves a gripping literary work between historical fact and fiction, leaving the reader transfixed.

Professors Michael Hunter Schwartz, Sophie Sparrow, and Gerry Hess, leaders in legal education, have collaborated to offer a second edition of their book. Applying the research on teaching and learning, this book guides new and experienced law teachers through the process of designing and teaching a course. The book addresses how to plan a course; design a syllabus; plan individual class sessions; engage and motivate students; use a variety of teaching techniques; assess student learning; and how to be a life- long learner as a teacher. New chapters focus on creating lasting learning, experiential learning, and troubleshooting common teaching challenges.

This collective volume seeks to approach the practice of language diversity in multi-ethnic urban societies of Austria-Hungary and place it both within its local and its larger European context, and within the broader studies of multilingualism and multiculturalism.

Designed for law teachers who want to improve their teaching and students' learning, this book offers general teaching principles and dozens of concrete ideas. The first two chapters present foundational principles of learning and instruction as well as insights from students. The next 12 chapters address classroom dynamics, technology, questioning, discussion, collaborative learning, experiential learning, feedback, assessment, and continued development for teachers. Each of these 12 chapters introduces the topic based on educational research and then offers classroom-tested exercises, approaches, material, and methods contributed by veteran teachers. The co-authors/editors, Gerald Hess (Gonzaga), Steven Friedland (Elon), Michael Hunter Schwartz (Washburn), and Sophie Sparrow (New Hampshire) are experts in legal education pedagogy. Techniques for Teaching Law 2 retains the format of the first volume, but introduces new content and new ideas that instructors of any level and background will find useful.

In this newly updated volume, Moliterno and Lederer take a fresh and innovative look at the subject of law and what law study and the practice of law entail by combining a traditional academic viewpoint with elements of law practice and ethics as it continues to be widely used in orientation and introductory courses. The American legal system can be hard to understand. Going to law school is both difficult and anxiety-producing. Introduction to Law is designed to help in both areas. Written by two highly-experienced legal educators at America's oldest law school, Introduction to Law provides the reader with a written equivalent of William & Mary Law School's famous introductory law school week. Often light-hearted, this useful and pragmatic book combines an innovative introduction to the American legal system with material on how to read and understand court cases and, critically, the lawyer's interaction with the client. All too often, legal texts ignore people, especially the client whose need for legal advice first engages the legal system. The text shows the reader how a lawyer must ascertain facts and goals from a client and then apply what the new lawyer (or law student) has learned about law and its interpretation to solve the client's problem. Revised in 2010 to be fresher, more readable, and more timely in its current events references, Introduction to Law is an ideal book for a soon-to-be law student or for anyone who wants a better understanding of how our legal system and lawyers function.

Sequential images are as natural at conveying narratives as verbal language, and have appeared throughout human history, from cave paintings and tapestries right through to modern comics. Contemporary research on this visual language of sequential images has been scattered across several fields: linguistics, psychology, anthropology, art education, comics studies, and others. Only recently has this disparate research begun to be incorporated into a coherent understanding. In The Visual Narrative Reader, Neil Cohn collects chapters that cross these disciplinary divides from many of the foremost international researchers who explore fundamental questions about visual narratives. How does the style of images impact their understanding? How are metaphors and complex meanings conveyed by images? How is meaning understood across sequential images? How do children produce and comprehend sequential images? Are visual narratives beneficial for education and literacy? Do visual narrative systems differ across cultures and historical time periods? This book provides a foundation of research for readers to engage in these fundamental questions and explore the most vital thinking about visual narrative. It collects important papers and introduces review chapters summarizing the literature on specific approaches to understanding visual narratives. The result is a comprehensive “reader” that can be used as a coursebook, a researcher resource and a broad overview of fascinating topics suitable for anyone interested in the growing field of the visual language of comics and visual narratives.

"Arbitration and mediation in international business was first published in 1996 and was one of the first comprehensive studies on the practice of international business dispute resolution, covering both international commercial arbitration and the so-called 'alternative' techniques such as mediation. The book also provided an empirical analysis of how both arbitration and mediation are conducted in a crossborder context, along with a normative guide to the relative costs and benefits of these two methods. This second edition is not just an updated version of the first edition but a new book in itself: Benefitting from the contributions of two co-authors, the work has been enhanced by discussions of innovative tools for making settlement negotiations more effective, and by the in-depth analysis of practical techniques to integrate mediation and arbitration in international business. Also, a comprehensive new empirical survey was conducted in order to capture new trends in this rapidly developing field. The result is a 'must have' resource for anyone having to deal with potential conflict in international business relationships."--Publisher's website.

Musical Rhythm in the Age of Digital Reproduction presents new insights into the study of musical rhythm through investigations of the micro-rhythmic design of groove-based music. The main purpose of the book is to investigate how technological mediation - in the age of digital music production tools - has influenced the design of rhythm at the micro level. Through close readings of technology-driven popular music genres, such as contemporary R&B, hip-hop, trip-hop, electro-pop, electronica, house and techno, as well as played folk music styles, the book sheds light on how investigations of the musical-temporal relationships of groove-based musics might be fruitfully pursued, in particular with regard to their micro-rhythmic features. This book is based on contributions to the project Rhythm in the Age of Digital Reproduction (RADR), a five-year research

project running from 2004 to 2009 that was funded by the Norwegian Research Council.

Translating Chinese Art and Modern Literature examines issues in cross-cultural dialogue in connection with translation and modern Chinese art and literature from interdisciplinary perspectives. This comprises the text-image dialogue in the context of Chinese modernity, and cross-cultural interaction between modern literature in Chinese and other literatures. This edited collection approaches these issues with discrete foci and approaches, and the ten chapters in this volume are to be divided into two distinct parts. The first part highlights the mutual effects between literary texts and visual images in the media of book, painting, and film, and the second part includes contributions by scholars of literary translation.
