"This is the remarkable story of America's personal and institutional responses to alcoholism and other addictions. It is the story of mutual aid societies: the Washingtonians, the Blue Ribbon Reform Clubs, the Ollapod Club, the United Order of Ex-Boozers, the Jacoby Club, Alcoholics Anonymous and Women for Sobriety. It is a story of addiction treatment institutions from the inebriate asylums and Keeley Institutes to Hazelden and Parkside. It is the story of evolving treatment interventions that range from water cures and mandatory sterilization to aversion therapies and methadone maintenance. William White has provided a sweeping and engaging history of one of America's most enduring problems and the profession that was birthed to respond to it" -- BACK COVER.

Quitting tobacco use is challenging. Quitting nicotine use is challenging. This easy to use curriculum is intended to help make quitting easier, and sometimes even enjoyable. It is practical and easy to use for the experienced health care professional or anyone who is interested in the subject and not experienced in the health care field. Inside this curriculum you will find that most of the work is done for you. Take an hour to read Section A. You may even have time left to prepare for your first group. There is a sample group schedule to follow if you wish, but how you use the rest of the curriculum is up to you. This curriculum can also easily be used with individuals. Check out Interesting Facts in Section B. Did you know that ear infections are common to children whose parents smoke? Or that one cigar has the nicotine content as high as one pack of cigarettes? (20 cigarettes) Or that 20-30 cigarettes a day = 200-300 puffs, which adds up to smoking about 2 hours a day? So, let's get started with this motivational group curriculum, which is designed for anyone who has a heart for the subject. You don't need to be an expert, just a good listener willing to encourage and assist those willing to take a look at their use of tobacco and nicotine.

A Bold New Approach To Addiction and Recovery

Addiction Counseling Certification

A REVOLUTIONARY NEW APPROACH TO ADDICTION RECOVERY FROM AN ADDICTION EXPERT Rewired is a new, breakthrough approach to fighting addiction and self-damaging behavior by acknowledging our personal power to bring ourselves back from the brink. Centered on the concept of self-actualization, Rewired will guide you towards not only physical sobriety, but a mental, emotional, and spiritual sobriety by learning to identify key principles within yourself, including authenticity, honesty, gratitude, and understanding a need for solitude. Rewired addresses the whole self; just as addiction affects every part of one's life, so too must its treatment. By helping us to build a healthy space to support our own recovery, we can rewrite the negative behaviors that result in addiction. Usable in conjunction with or in place of 12-step programs, Rewired allows for a more holistic approach, helping to create a personalized treatment plan that is right for you. Each section in Rewired includes: - Personal anecdotes from the author's own struggles with alcoholism and addiction - Inspiring true success stories of patients overcoming their addictions - Questions to engage you into finding what is missing from your recovery - Positive affirmations and intentions to guide and motivate With all the variables, both physical and emotional, that play into overcoming addiction, Rewired enables us to stay strong and positive as we progress on the path to recovery. Rewired teaches patience and compassion, the two cornerstones of a new, humanist approach to curing addiction. Remember, addicts are not broken people that need to be fixed—they just have a few crossed wires.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

Alcohol and Drug Counselor Exam Practice Questions are the simplest way to prepare for the ADC test. Practice is an essential part of preparing for a test and improving a test taking strategy for success. The best way to practice taking a test is by going through lots of practice test questions. Our Alcohol and Drug Counselor Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for every question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Alcohol and Drug Counselor Exam Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will help you to better understand any questions that were difficult for you or that you needed more help to understand.

Problems stemming from the misuse and abuse of alcohol and other drugs are by no means a new phenomenon, although the face of the issues has changed in recent years. National surveys indicate substantial increases in the abuse of prescription medications. These increases are particularly prominent within the military, a population that also continues to experience longstanding issues with alcohol abuse. The problem of substance abuse within the military has come under new scrutiny in the context of the two concurrent wars in which the United States has been engaged during the past decade--in Afghanistan (Operation Enduring Freedom) and Iraq (Operation Iraqi Freedom and Operation New Dawn). Increasing rates of alcohol and other drug misuse adversely affect military readiness, family readiness, and safety, thereby posing a significant public health problem for the Department of Defense (DoD). To better understand this problem, DoD requested that the Institute of Medicine (IOM) assess the adequacy of current protocols in place across DoD and the different branches of the military pertaining to the prevention, screening, diagnosis, and treatment of substance use disorders (SUDs). Substance Use Disorders in the U.S. Armed Forces reviews the IOM's task of assessing access to SUD care for service members, members of the National Guard and Reserves, and military dependents, as well as the education and credentialing of SUD care providers, and offers specific recommendations to DoD on where and how improvements in these areas could be made.

The second edition of Nina's Brown's Psychoeducational Groups provides an overview of the major learning and instructional theories together with specific guidelines for conducting psychoeducational groups. Presented are principles of group instruction; specific guidelines for creating groups and understanding phases of group development; and a guide for preparing and leading experimental activities. This new edition includes two new chapters covering aspects of group planning and providing examples of preparing themed sessions with special population groups such as children, adolescents and adults.

“A classic. Read it. Use it. It can help guide you step by step into the bright light of the world of recovery.” –from the Foreword by Harry Haroutunian, M.D., Physician Director, Betty Ford Center “The Recovery Book is the Bible of recovery. Everything you need to know you will find in here.” –Neil Scott, host, Recovery Coast to Coast radio Hope, support, and a clear road map for people with drug or alcohol addiction. Announcing a completely revised and updated second edition of The Recovery Book, the Bible of addiction recovery. The Recovery Book provides a direct and easy-to-follow road map to every step in the recovery process, from the momentous decision to quit to the emotional, physical, and spiritual issues that arise along the way. Its comprehensive and effective advice speaks to people with addiction, their loved ones, and addiction professionals who need a proven, trusted resource and a supportive voice. The new edition of The Recovery Book features the revolutionary Recovery Zone System, which divides a life in recovery into three chronological zones and provides guidance on exactly what to do in each zone. First is the Red Zone, where the reader is encouraged to stop everything, activate their recovery and save their life. Next is the Yellow Zone, where the reader can begin to rebuild a life that was torn apart by addiction. Finally, the reader reaches the Green Zone, where he can enjoy a life a recovery and help others. Readers also learn how to use the Recovery Zone ReCheck, a simple, yet very effective relapse prevention tool. The Recovery Zone System works hand-in-hand with the 12-step philosophy and all other recovery methods. In addition, The Recovery Book covers new knowledge about addiction mechanisms and neuroplasticity, explaining how alcohol and drugs alter the brain. The authors outline a simple daily practice, called TAMERS, that helps people to use those same processes to “remold their brains” around recovery, eventually making sobriety a routine way of life. Written by Al J. Mooney, M.D., a recovery activist who speaks internationally on recovery, and health journalists Catherine Dold and Howard Eisenberg, The Recovery Book covers all the latest in addiction science and recovery methods. In 26 chapters and over 600 pages, The Recovery Book tackles issues such as: Committing to Recovery: Identifying and accepting the problem; deciding to get sober. Treatment Options: Extensive information on all current options, and how to choose a program. AA and other 12-Step Fellowships: How to get involved in a mutual-support group and what it can do for you. Addiction Science and Neuroplasticity: How alcohol and drugs alter pathways in the brain, and how to use the same processes to remold the brain around recovery. Relapse Prevention: The Recovery Zone ReCheck, a simple new technique to anticipate and avoid relapses. Rebuilding Your Life: How to handle relationships, socializing, work, education, and finances. Physical and Mental Health: Tips for getting healthy; how to handle common ailments. Pain Control: How to deal with pain in recovery; how to avoid a relapse if you need pain control for surgery or emergency care. Family and Friends: How you can help a loved one with addiction, and how you can help yourself. Raising Substance-Free Kids: How to “addiction-proof” your child. The Epidemic of Prescription Drugs: Now a bigger problem than illegal drugs. Dr. Al J. Mooney has been helping alcoholics and addicts get their lives back for more than thirty years, using both his professional and personal experiences at his family’s treatment center, Willingway, and most recently through his work as medical director for The Healing Place of Wake County (NC), a homeless shelter. The Recovery Book will help millions gain control of their mind, their body, their life, and their happiness. www.TheRecoveryBook.com

History of Modern Clinical Toxicology describes extraordinary advances in the practice of clinical toxicology within the past 70 years, bringing together stories of those who contributed and those who discovered new therapies and antidotes and made change happen. The book lays out the poison control system and the fascinating story of how they created a new and evolving medical specialty. In addition, the book tells the stories of modern-day toxic disasters that led to improvements in our understanding of the science. Finally, the book covers key policies and agencies, addresses the challenges facing clinical toxicologists, and predicts future advances. This book is a unique resource with an historical and international perspective that will help practitioners put current issues and methods in perspective while also giving readers an understanding on how infrastructure and processes have evolved. Offers descriptions of the key regulatory advances affecting clinical toxicology Provides synopses of modern-day poisoning disasters Outlines the development of modern antidotes and future directions in clinical toxicology

Dr. Michael Belzman is the founder of the Association of Christian Alcohol & Drug Counselors (ACADC). An educator, counselor and pastor, he is also a speaker at congressional hearings warning law makers against making laws that exclude Faith-Based counselors from participation in the professional arena or infringe upon their religious freedom. ACADC is the only Christ-centered counselor certification organization authorized by any state government. ACADC Institute trains their students biblically so they can provide addiction counseling to Christians in need of the biblical rather than secular options. Few thought it possible that a Christ-centered certification board could exist in today's postmodern society, yet ACADC was written by the hand of God into the California Code of Regulations, opening a door that no man could close. From a background of teaching psychology at secular universities, and a false belief in human solutions to the problems of the soul, Dr. Belzman surrendered his life to Christ in 1980. By nurturing a personal relationship with Him through prayer and Bible study, he found that God's life principles and promises changed his life in a way that psychology or prescribed drugs could not do. He saw first-hand how God's power not only overcomes deep addiction, but can direct the decisions of kings. Dr. Belzman pastors ACADC Christian Fellowship founded on the notion that healing of the soul best takes place in the context of Christ-centered relationships bathed in prayer. He lives with his family in Calimesa, California and welcomes communication from anyone desiring to serve God by becoming a Christ-centered counselor. He and his staff of Christ-centered professionals may be contacted by email at acadc@acadc.org, or by letter addressed to the Association of Christian Alcohol & Drug Counselors, attn: Mike Belzman, PO Box 8604, Redlands, CA 92375.

(The book) is meant to improve the initial and ongoing professional development of substance abuse counselors.... It is (the author's) hope that (the book) will increase the entry-level competence of counselors seeking certification as alcohol and drug abuse counselors. This book not only discusses the core functions of the substance abuse counselor, but also provides the latest information on the global criteria used by the ICRC to evaluate

applicants for certification.... This book can be used by professors and instructors in counselor training programs and by supervisors in treatment programs to prepare trainees for a professional career as an alcohol and drug abuse counselor. -Introd.
