essay on its history as well as a Further Reading list. In addition, the dictionary includes introductory articles on the history of various types of libraries and a library history in various regions of the world. The dictionary profiles more than 200 institutions from around the world, including the world's most important research libraries and other libraries with globally or regionally notable collections, innovative traditions, and significant and interesting histories. The essays take advantage of the growing scholarship of library history to provide insightful overviews of each institution, including not only the traditional values of these libraries but their innovations as well, such as developments in automated systems and electronic delivery. The profiles will emphasize the unique materials of research in these institutions - archives, manuscripts, personal and institutional papers. The introductory articles on types of libraries include topics ranging from theological libraries to prison libraries, from the ancient to the digital. An international team of more than 200 leading scholars in the field have contributed essays to the project.

Provides authoritative coverage of the ever-expanding vocabulary of the nursing profession. In the fall of 2009, with the publication of her #1 national bestselling memoir, Sarah Palin had the privilege of meeting thousands of everyday Americans on her extraordinary 35-city book tour. Inspired by these encounters, her new book, *America By Heart: Reflections on Family, Faith, and Flag*, celebrates the enduring strengths and virtues that have made this country great. Framed by her belief in the importance of family, faith, and patriotism, the book ranges widely over American culture, and current affairs, and reflects on the key values—both national and spiritual—that have shaped such a profound part of Governor Palin's life and continue to inform her vision of America's future. Written in her own refreshingly candid voice, *America By Heart* will include selections from classic and contemporary readings that have moved her—from the nation's founding documents to great speeches, sermons, letters, literature and poetry, biography, and even some of her favorite songs and music. Here, too, are portraits of some of the extraordinary men and women she admires and who exemplify her deep love of country, her strong rootedness in faith, and her profound love and appreciation of the American people. She will also draw from personal experience to amplify these timely (and timeless) themes—themes that are sure to inspire her numerous fans and readers all across the country.
