

Financial Planner Magazine Volume 016 2017 Spring

Aging is inevitable, but it sure beats the alternative! So as long as you are going to age anyway, you might as well take the steps and put in the work to age as well as possible and be the best older you that you can possibly be! As we age it is important that we have enough financial resources to do the things we need to do to age well and to enjoy whatever lifestyle we chose to lead. So planning to live forever must include planning to accumulate sufficient financial resources to make your money last forever. I like to call this combination of aging well and having the financial resources to do so financial gerontology. This book is a guide to the proper steps we can take, or seeds we can plant, to live your best, longest, most prosperous, and most impactful life. What follows in these pages is meant to make you believe that you have the power and ability to make life better for yourself and others. In fact, if you learn enough, avoid some of the serious mistakes many people make, and get on the road to good health and financial freedom, you can change not only your life but the lives of those you love. It is increasingly apparent that most firms succeed because they are willing to break the rules and act entrepreneurially. The purpose of this text is to examine how this simple trading principle can be applied by any individual in any private or public sector organisation by focusing on the concept of entrepreneurial marketing, across all aspects of the marketing process. Entrepreneurial Marketing begins by defining the 'rules' of marketing as a basis for the entrepreneur to understand what 'rules' need breaking. Subsequent chapters cover the marketing mix, innovation management, and compare large versus small firms. All issues are illustrated with extensive real-world examples throughout. Entrepreneurial Marketing is ideal reading for students and professionals who want an exciting, relevant and innovative approach to, and perspective of, management and marketing. From determining your hiring needs, to crafting an effective job description, identifying and vetting top talent, to making the right compensation offer, Successful Hiring for Financial Planners is a straightforward guide that provides practical wisdom and real-world experience for how to effectively execute the hiring process for your first (or next) financial planning hire in your growing advisory firm. Inside this guide you will learn:
• How to develop an appealing career track
• When you should begin the hiring process
• How to let your firm's culture recruit for you
• The art and science of screening candidates
• How to overcome common hiring struggles
• Practical tips to handle underperformers
• How to develop a succession plan
Successful Hiring for Financial Planners delivers a comprehensive plan to help your firm grow so you can serve the consumers who are in need of your guidance the most.

A Financial Planning Guide for Ordinary People

Couples Ages 62-70: Act Now, Retire Secure Later

Money is a tool that we can all master. You choose to either be a Money Slave or a Money Master. My money, written by Gerald Mwandambira, is a practical, easy to read, personal finance book. A guide that will help many ordinary people begin to create wealth and not fear the subject of personal financial planning. A treasure trove of useful advice and tips, this book is essential reading to gain a basic understanding of money mechanics. A guide to help you find your confidence, and see money as it really is; a tool that anyone can use. With a chapter dedicated to almost every financial situation we face in our lives, My Money will become your go-to book that will help you unlock your financial potential and gain control of your financial affairs. You, too, have the potential to become a Money Master.

Anyone concerned about finances—and that's just about everyone—will welcome this step-by-step guide to opening up about a difficult subject. It offers a strategy that can save money, improve relationships, and help people raise fiscally responsible children.
• Discusses the societal, familial, and personal roadblocks that make talking about money and finance challenging
• Explores gender differences when it comes to talking about money and how 'money silence' contributes to the wage gap for women
• Reveals the cost of living in "money-less," including how it contributes to the high U.S. divorce rate, how it inhibits the ability of some parents to raise financially literate and responsible children, and how it stops families from successfully passing on wealth
• Identifies common money myths that fuel financial misunderstandings and mistakes, and offers tools for uncovering these fallacies
• Shows how the financial advising industry has colluded with the idea that men and women don't need to talk about family finances as a couple—and how advisors can advocate for change
• Shares practical, easy-to-implement tips and tools for talking about money with partners, parents, siblings, children, and employers/employees
• Offers a "Money Talk Challenge" coaching exercise at the end of each chapter, with a special section on how advisors can use these tools with clients

AWARDS: Silver Living Now Book Award, Mature Living/Aging 2014 (Silver) If you're one of the 25 million single women over the age of 45 living in the United States today, AARP's The Single Woman's Guide to Retirement is your new best friend. Walking you through the challenges of retired or pre-retired life, from managing your finances to staying healthy in body, mind, and spirit, dealing with divorce, and even looking for love or work, the book covers the issues that really matter to you. Whether you're looking for a retirement home or planning a cruise, this book is packed with specific details to help take the guesswork out of retirement. Author and retirement expert Jan Cullinane has gathered real-life stories from women just like you to illustrate your options and give you fresh new ideas about how to make the most of your retirement years.

With the newly revised 2nd Edition, Facilitating Financial Health remains a one-of-a-kind publication that bridges the gap between financial planners and mental health practitioners. The authors, two mental health professionals and a CFP(R)-designated financial planner, pioneered the use of tools that help clients build healthy relationships with money. This concise yet comprehensive Guide enables financial planning and mental health practitioners to effectively integrate tools from the fields of psychotherapy, life coaching, and financial planning as they help their clients change destructive financial behaviors. Facilitating Financial Health, 2nd Edition will enable you to:
-Address your clients' money-driven problems, from both financial planning and mental health perspectives
-Learn the best techniques and recognize when to call in help from outside your field when dealing with clients' financial issues
-Focus on both interior (emotional and intangible aspects of money) as well as exterior (the tangible "nuts and bolts" of financial planning) financial health topics
-Explore "Money Scripts" - beliefs about money commonly held by clients, financial planners, and therapists that can lead to destructive financial habits
-More effectively work with individuals and couples on difficult financial health topics
In addition to everything that made the 1st Edition so popular, this new 2nd Edition delivers these enhancements:
-Modern counseling tools are presented with references to updated research and publications for both financial planning and mental health professionals
-A more comprehensive description of "Money Scripts" - beliefs that hamper clients' abilities to make sound financial planning decisions
-Updated ethical information, including references to new CFP(R) ethical guidelines
-A newly enhanced chapter on creating an integrated financial practice
-New tools for working with couples, including tips on working with nontraditional and unmarried couples
-Content that has been enhanced by readers about the kinds of money-driven relationship issues that are the most commonly seen by planners and clients alike

The Single Woman's Guide to Retirement

This two-volume set offers a comprehensive overview of major challenges faced by cities worldwide in the 21st century, and how cities in different geographic, economic, and political conditions are finding solutions to them.
• Offers students more than a simple A–Z encyclopedia of the world's major cities by delving deep into the issues that these urban centers face
• Includes approximately 100 entries on a multitude of issues in a variety of cities around the world, from Abu Dhabi to Zurich
• Includes photographs to help to illuminate and provide visual support to the text
• Features entries written by more than 30 scholars with backgrounds in a variety of disciplines, contributing to a well-rounded, comprehensive text

Die Implementierung von CRM in einem Unternehmen ist mit vielen Herausforderungen verbunden, da eine solche Implementierung viel Zeit erfordert und hohe Kosten verursacht. Diese Kosten sind mitunter schwer zu rechtfertigen. Jedoch verspricht man sich, durch diese Technologie ein besseres Kundenverständnis zu erlangen und somit auch seine Umsätze nachhaltig steigern zu können. Leider ist es oft der Fall, dass Systeme, die das Kundenmanagement erleichtern sollen, genau das Gegenteil bewirken und somit zu Frust und Enttäuschung führen. Die vorliegende Arbeit beschäftigt sich mit den Erfolgsschlüsselfaktoren für die Implementierung von CRM in einer Vertriebsorganisation im B2B Bereich.

Knowing what to do with your money is more important than ever. Billingsley/Gitman/Joehnk's market-leading PERSONAL FINANCIAL PLANNING, 4AE, provides the tools, techniques, and understanding you need to define and achieve your financial goals. You will find the numerous practical examples, illustrations, and reliance on common sense that is engaging and refreshingly concrete. Features such as You Can Do It Now, the Financial Impact of Personal Choices, Financial Fact or Fantasy, Financial Planning Tips, Financial Road Signs, and Behavior Matters keep the material relevant and vital to facing a life time of important personal financial decisions. The 14th edition is packed with information relevant to you—for example, changing spending habits for the better, knowing the right questions to ask a financial adviser, using tips on budgeting and planning for retirement, knowing what to look for when choosing a bank, knowing whether to buy or lease a car, knowing what's important when buying your first home, and choosing the right credit card. All-new features teach you to use today's critical financial tools and technology, including financial planning software. CFP practice questions provide valuable practice. The research finds the majority of the higher education student financial aid programs are managed by the states or private agencies or foundations in the world. Their financial aid policies are continuously changing and improving to adopt contemporary situations and changing time. Likewise, the GB higher education student loan policy improvement can be done by continuously reviewing the system, which is necessary for GB to strengthen its higher education student loan program in Bangladesh. Don't let your fear of finance get in the way of your success. This digital collection, curated by Harvard Business Review, brings together everything a manager needs to know about financial intelligence. It includes Financial Intelligence, called a "must-read" for decision makers without expertise in finance; A Concise Guide to Macroeconomics, which covers the essentials of macroeconomics and examines the core ideas of output, money, and expectations; Essentials of Finance and Budgeting, which explains everything professionals need to know to make wise financial decisions; Ahead of the Curve, Josh H. Ellis's forecasting method to help managers and investors understand and predict the economic cycles that control their businesses and financial rates; Beyond Budgeting, which offers a coherent management model that overcomes the limitations of traditional budgeting; Preparing a Budget, packed with handy tools, self-tests, and real life examples to help you hone critical skills; and HBR Guide to Finance Basics for Managers, which will give you the tools and confidence you need to master the fundamentals of finance.

There were two married couples, the Rushers and the Planners, with identical earnings records and investments. The Rushers didn't read this book and during retirement, they ran out of money. Bad news. The Planners, however, took the time to read this short little book, implemented the recommended strategies, and when the Rushers were barely scraping by, they still had \$2,013,881.If you want to be a Planner and not a Rusher, please read this book.Eligible married couples must act by April 29, 2016 to take advantage of the two strategies that will allow them to maximize their income from Social Security.Why?Because a certain provision buried in the fine print of the Bipartisan Budget Act of 2015 eliminates the two strategies: Apply and Suspend and Restricted Applications for Benefits.If you are married and will be at least 66 by April 29, 2016, you should read this book to learn whether it would benefit you to apply for and suspend your benefits by the deadline.The second strategy, called a Restricted Application for Benefits, allows for benefits and specify that you only want to receive whatever spousal benefit to which you might be entitled. If you were at least 62 years old as of December 31, 2015, you will be able to file a Restricted Application for Benefits.Clearly, maximizing Social Security benefits is to your advantage. What many people do not realize is just how important it can be to the surviving spouse. If you are the higher earner and you make the right choices, your spouse will be eligible to receive a survivor's benefit which, at maximum, as high as your own benefit amount. But, two of the strategies that you can use to maximize your benefits are being eliminated. Don't delay. Read this book, and then talk to a professional about your options before it's too late.

NEW YORK TIMES BESTSELLER! The Sustainable Edge: Fifteen Minutes a Week to a Richer Entrepreneurial Life was written for business owners who are seeking a fuller, more rewarding work-life balance. In this easy-to-reference, practical guide authors and entrepreneurs Ron Carson and Scott Ford share personal anecdotes to their own career successes. Each chapter is designed to inspire entrepreneurs to define and sustain a competitive edge in the complex, fast-changing world of business. Relying on insights and proprietary tools based on decades of experience, the authors teach you how to achieve your goals across four key areas: your business, your teams, your clients, and your personal lives. In this book you will learn the authors' trademarked Business Implementation Quotient (IQ) Grower process that appears in the form of end-of-chapter exercises. These easy-to-perform exercises can be completed in as little as 15 minutes per week to help your company boost its own Business IQ. This work is an important read for entrepreneurs in search of achieving the sustainable edge in their careers and their lives.

The first book to provide a comprehensive history of the financial planning profession The financial services field has been revolutionized in the last quarter of the twentieth century by the financial planning profession. So much has happened in so little time that it has been difficult to keep up with the events and key players that make up the world of financial planning. The History of Financial Planning is the first book to provide a comprehensive history of the profession. Backed by the Financial Planning Association, The History of Financial Planning offers a clear overview of the industry and how it has grown and changed over the years. This book chronicles the history of the profession, with explanations of how the financial planning movement has grown beyond the United States to other countries-particularly in the last fifteen years. The book also demonstrates how the work of key researchers, such as Dr. Daniel Kahneman, Vernon Smith, and Amos Tversky, has influenced the rise of the financial planning profession Names "four initial engines of growth" that contributed to the success of financial planning Reveals the moments and key players that define the history of financial planning Discusses the emergence of the Financial Planning Association (FPA) The financial planning field has a rich history, and with this book as your guide, you'll quickly discover how it has evolved over the years.

Each century has its own unique approach toward addressing the problem of high density and the 21st century is no exception. As cities try to cope with rapid population growth - adding 2.5 billion dwellers by 2050 - and grapple with destructive sprawl, politicians, planners and architects have become increasingly interested in the vertical city paradigm. Unfortunately, cities all over the world are grossly unprepared for integrating tall buildings, as these buildings may aggravate multidimensional sustainability challenges resulting in a "vertical sprawl" that could have worse consequences than "horizontal" sprawl. By using extensive data and numerous illustrations this book provides a comprehensive guide to the successful and sustainable integration of tall buildings into cities. A new crop of skyscrapers that employ passive design strategies, green technologies, energy-saving systems and innovative renewable energy offers significant architectural improvements. At the urban scale, the book argues that planners must integrate tall buildings with efficient mass transit, walkable neighbourhoods, cycling networks, vibrant mixed-use activities, iconic transit stations, attractive plazas, well-landscaped streets, spacious parks and engaging public art. Particularly, it proposes the Tall Building and Transit Oriented Development (TB-TOD) model as one of the sustainable options for large cities going forward. Building on the work of leaders in the fields of ecological and sustainable design, this book will open readers' eyes to a wider range of possibilities for utilizing green, resilient, smart, and sustainable features in architecture and urban planning projects. The 20 chapters offer comprehensive reading for all those interested in the planning, design, and construction of sustainable cities.

The History of Financial Planning

The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics.

"Jeff Rattiner has found another way to help producers. This book is a must-have for financial advisors, especially those that aspire to be Million Dollar Producers." -Thomas B. Gau, CPA, CFP President and CEO of Million Dollar Producer "Jeff Rattiner has done it again! His book displays all the essential tools and techniques necessary for advanced planners to succeed in this business. Rattiner's easy-to-read style provides the best in marketing and practice management ideas. This book will help you if you have hit a dead end in your practice. Rattiner tells it like it is by providing a no-nonsense approach to truly taking your practice to the next level. A must-read for the serious financial advisor." -Jim Cannon, President, SunAmerica Securities, Sentra Securities Corporation, and Spelman & Co., Inc. Financial planners provide a variety of services to an array of clients but lack a uniform system for creating a profitable business. Rattiner's Financial Planner's Bible: The Advisor's Advisor collects best practices from the nation's leading financial planners, presenting a prototype turnkey model for achieving financial success for both the client and the practice. Financial planning expert Jeffrey Rattiner emphasizes an ethical, practical approach to financial advising, placing paramount importance on "doing what's best for the client." Drawing on extensive interviews and his own experience, Rattiner delivers can't-miss tips on marketing a financial planning practice, developing an infrastructure, crafting strategic alliances, assessing a business's profitability, and creating the model twenty-first-century practice. This authoritative guide also covers:
• Forming a planning advisory board
• Establishing a realistic chain of command
• Delegating responsibility
• Making technology work for you
• Charging clients appropriately
Running a financial planning business need not be an exercise in trial and error. Rattiner's Financial Planner's Bible delivers a compelling model for advising success.

The financial services industry can be personally and financially rewarding, so why is it that so few women are in the field? Arthea Reed and Diane Dixon draw upon the results of a Women in Insurance & Financial Services research study and their own extensive knowledge to explain the shortage as well as to inspire more women to enter or remain in the field. Some of the most successful women in financial services have overcome great personal tragedy, professional ridicule, and failure to reach the pinnacle of success. By studying their moves, you can: follow in the footsteps of successful female financial services professionals; train up-and-coming female professionals so they have the knowledge and tools to succeed; and promote a workplace thats inclusive, inspirational, and encouraging for everyone. Walk down the path to a successful and rewarding career in financial services and help others do the same by learning from amazingly successful women. Whether youre already in the industry or considering it as a career, you'll get a roadmap to overcome challenges with Financial Services: Women at the Top.

Walker outlines the tools necessary to evaluate alternative investments and further diversify your portfolio using hedge funds, real estate, venture capital, gold and more. Using ground-breaking data on alternative investments, the author explores how to apply new risk measurements for building a portfolio with these investment vehicles.

Praise for The Magnet® Method of Investing "Rather than encouraging the scatter shot approach of broad diversification, Jordan focuses on the rifle-shot Magnet® method of identifying a limited number of quality stocks to improve your chances of beating the market." —Sam Stovall, Chief Investment Strategist, Standard & Poor's Equity Research "Jordan Kimmel is one of the brightest market observers out there, and he is certainly a rising star that will be an important person to follow marketwise for many years." —Michael Burke, Coeditor, Investors Intelligence, Inc. "Jordan Kimmel's The Magnet® Method of Investing is an amazing, detailed, and intuitive book. I especially enjoyed Jordan's insights into diversification, the inefficient market, and identifying stocks that are in their 'sweet spot.' Jordan's writing style is also very straightforward and refreshing. He succeeds in taking complicated subjects and explaining them in an insightful way. This is simply an incredible book that is a must-read for both beginning and serious investors." —Louis G. Navellier, Chairman and founder, Navellier & Associates, Inc. "The Magnet® Method of Investing examines investing from a different perspective than many investors often see, offering a unique alternative to diversification. Jordan Kimmel has analyzed the methods of the best investors through time and introduces his robust stock selection process." —David M. Darst, CFA, Managing Director and Chief Investment Strategist, Morgan Stanley Global Wealth Management Group "We welcome Jordan's book as a valuable perspective on investing. The Wall Street Transcript applauds money managers like Jordan who explain their philosophies clearly,

support them with research, and back them up with performance data. This is a great addition to any investing reading list." —Andrew Pickup, Publisher and CEO, The Wall Street Transcript "The Magnet® Method of Investing takes on the important issue of diversification, which has been oversold to Main Street. This is yet another example of the need to 'go against conventional thinking' if you want to achieve superior results." —Stan Weinstein, Editor and Publisher, Global Trend Alert PRINCIPLES OF RESPONSIBLE MANAGEMENT offers an international, scientifically sound, and strictly practice-related perspective. It is the first official textbook of the United Nations for the Principles for Responsible Management Education (PRME) academic network, and a reference book for companies of the United Nations Global Compact Initiative. It is a primary text for traditional business and society, business ethics, corporate social responsibility, and sustainability courses, or may serve as a practitioner handbook. Contributors are renowned academic professionals in their respective chapter topics as well as distinguished business practitioners who contribute highly relevant practice cases. The Regulation of Financial Planning in Australia

The New Profession

The MAGNET Method of Investing

This book investigates the legitimacy of the current Australian Financial Services License-Authorised Representative (AFSL-AR) licensing model, as specified in the Commonwealth Corporations Act 2001. The book rectifies the deficiency in scholarly attention to this matter by developing a new conceptualised framework for the financial planning discipline. It takes into account theories in agency, legislation, legitimacy and the independent individual regulatory regimes in other professions; thereafter integrating this framework with the financial planning theory to examine the legitimacy, or what was found to be the illegitimacy of licensing advisers via multiple third party certified commercially oriented licenses. This book makes a very useful reference to understanding financial planning licensing model in Australia.

In Smart Money, Dr. Teitelbaum conveys how to identify and overcome our emotional roadblocks that interfere with successful investing, and he explores ways for people to develop greater trust in their ability to navigate their own investment decisions and to reduce their reliance on financial advisors. We all have personality issues that can become impediments to successful investing in the stock market and lead us into pitfalls, like buying high and selling low, following the herd, and searching for the next guru. Dr. Teitelbaum explains how addressing and overcoming our personal obstacles and implementing a set of guidelines such as distinguishing luck from skill, having your ego out of investment decisions, recognizing the value of self-discipline, avoiding self-deception, taming your inner con man and inner critic, and tuning out the media "noise" will enable investors to achieve a greater degree of success. Praise for Smart Money "In this painstakingly researched and well-written book, the clinical psychologist Stan Teitelbaum has applied his craft to something all investors know too well—our emotions, and human habits often diminish our portfolio results. He takes you through countless cases of common mistakes using markets and the heroes of the past. As you read it, you will personally identify with some of his examples and find yourself saying, "That's me!" As a result, you are likely to learn some important money-management lessons along the way." Byron Wien, vice chairman of Blackstone Private Wealth Solutions Group "Stanley Teitelbaum's disciplined approach to investing is a wise path for individual investors to build wealth over time. His understanding of the stock market's volatility, its cyclicity, its inherent risks, and its history of performance informs that approach. Dr. Teitelbaum illustrates clearly how our own behavior and our very human impulses often lie at the bottom of our disappointing investment results and how recognizing and controlling our behavior can lead to successful investing." AI Messina, managing director, Silvercrest Asset Management Group "This is quite an engaging book about psychological perceptions of risk and its relation to stock investing. It should appeal to both financial types and a general audience." Edward N. Wolff, professor of economics, New York University

The Successful Photographer's Secret! Thousands of successful photographers have trusted Photographer's Market as a resource for growing their businesses.
