New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

SHORTLISTED FOR THE 2017 MAN BOOKER PRIZE A Globe and Mail Best Book A New York Times Notable Book of the Year From the internationally celebrated author of The New York Trilogy comes a sweeping story of birthright and possibility, of love and the fullness of life itself, in which we follow the four parallel lives, loves, and obsessions of one remarkable boy during a time of great change in America. On March 3, 1947, in the maternity ward of Beth Israel Hospital in Newark, New Jersey, Archibald Isaac Ferguson, the one and only child of Rose and Stanley Ferguson, is born. From that single beginning, Ferguson's life will take four simultaneous and independent fictional paths. Four Fergusons made of the same genetic material, four boys who are the same boy, will go on to lead four parallel and entirely different lives. Family fortunes diverge. Loves and friendships and intellectual passions contrast. Chapter by chapter, the rotating narratives evolve into an elaborate dance of inner worlds enfolded within the outer forces of history as, one by one, the intimate plot of each Ferguson's story rushes on across the tumultuous and fractured terrain of mid-twentieth-century America. A boy grows up -- again and again and again. As inventive and dexterously constructed as anything Paul Auster has ever written, 4 3 2 1 is an unforgettable tour de force, the crowning work of this masterful writer's extraordinary career.

"In this book, Professor Stone traces the development of the idea of legal rights, reminding us that children, old people, women, aliens, and "minorities" have been treated as without rights in many societies throughout human history. Although each new movement to confer rights on some new "entity" may have seemed "odd or frightening or laughable" at the time, Stone points out that legal rights have been extended and previously rightless people (and things) have come to be recognized and valued for themselves. he then develops his thesis and proposal that we give legal rights to "natural objects" in the environment--and to the natural environment as a whole"--Back cover.
