WHAT A RADICAL DIFFERENCE EMOTIONAL INTELLIGENCE MAKES With this extraordinary benefit, we're happier, more productive and successful. We love and help others more effectively. Our health likely improves as well. Without it, our emotions so often defeat us. We worry incessantly about catastrophes that never occur. We lose our temper easily. We cave in to despair over a setback, missing any silver lining. We give in to the urge to rescue someone, when we're already overextended. We tire unnecessarily. The emotionally intelligent person is far less susceptible. She understands her feelings well, and handles them adeptly. He also knows how to draw many benefits-even from his negative emotions. In this warm and insightful book, Blaine Smith looks carefully at what emotional intelligence is, and why it's vital for the Christian. He explains how you can achieve it, offering much practical counsel, and drawing on many fascinating biblical and personal examples. He looks at issues common to everyone, and at many unique to us as believers. Emotional Intelligence for the Christian will help you to: Avoid emotional freefalls into anger, despair, anxiety Understand anger's pitfalls as well as its positive role Grow more optimistic about your future, and gain greater motivation for steps of faith Better prepare yourself emotionally for solving problems and recognizing God's guidance Understand when your desires signal God's will for you Appreciate your unique temperament and its benefits More effectively love and serve others for Christ The goal of growing wiser emotionally is highly achievable for any of us who take it seriously. This book will give you both the inspiration and practical guidance to make it happen M. Blaine Smith is director of Nehemiah Ministries, in the Washington, D.C. area, and author of many books, including Overcoming Shyness and The Yes Anxiety.

African-Americans have long confronted the challenge of dignity destruction caused by white supremacy. While many have found meaning and restoration of dignity in the black church, others have found it in ethnocentric socioreligious groups and philosophies. These ideologies have grown and developed deep traction in the black community and beyond. Previously found primarily in urban communities and conscious Hip-hop songs, now that we are in the Internet age, they have a broader reach than ever. Revisionist history, conspiracy theories, and misinformation about Jesus and Christianity are the order of the day. Many young African-Americans are disinterested in Christianity and others are leaving the church in search of what these false religious ideas appear to offer, a spirituality more indigenous to their history and ethnicity. Edited by Dr. Eric Mason and featuring a top-notch lineup of contributors, Urban Apogetics is the first book focused entirely on cults, religious groups, and ethnocentric ideologies prevalent in the black community. It brings the church up to speed on the legitimate issues that blacks have with Western Christianity as well as the questions alternative religious groups pose about historic Christianity, and it applies the gospel to black identity to show that Jesus is the only one who can restore our identity.

This up-to-date textbook features global perspectives on current Christian engagement with Islam, equipping readers for mission among Muslims. Evelyne Reisacher, who has worked extensively with Muslims in Europe, helps readers move from fear to joy as they share the gospel with Muslims. Reisacher surveys areas where Muslims and Christians encounter one another in the twenty-first century, highlighting innovative models of Christian witness in everyday life. Drawing on insights from global Christianity, this survey takes account of diverse conceptions of Muslim-Christian relations. The book may surprise those who believe mission among Muslims is nearly impossible. This is the first book in the Mission in Global Community series, which reframes missiological themes and studies for students around the common theme of mission as partnership with others. Series authors draw upon their own global experience and that of their global colleagues to illumine present realities and chart a course into the future. Series editors are Scott W. Sunquist and Amos Yong.

As cities continue to expand, Christ calls the church to bring the gospel to these centers of population, culture, and political power.

American public opinion tends to be sticky. Although the news cycle might temporarily affect the public's mood on contentious issues like abortion, the death penalty, or gun control, public opinion toward these issues has remained remarkably constant over decades. There are notable exceptions, however, particularly with regard to divisive issues that highlight identity politics. For example, over the past three decades, public support for same-sex marriage has risen from scarcely more than a tenth to a majority of the population. Why have people's minds changed so dramatically on this issue, and why so quickly? It wasn't just that older, more conservative people were dying and being replaced in the population by younger, more progressive people; people were changing their minds. Was this due to the influence of elite leaders like President Obama? Or advocacy campaigns by organizations pushing for greater recognition of the equal rights of Lesbian, Gay, Bisexual, and Transgender (LGBT) people? Listen, We Need to Talk tests a new theory, what Brian Harrison and Melissa Michelson call The Theory of Dissonant Identity Priming, about how to change people's attitudes on controversial topics.

Harrison and Michelson conducted randomized experiments all over the United States, many in partnership with equality organizations, including Equality Illinois, Georgia Equality, Lambda Legal, Equality Maryland, and Louisiana's Capital City Alliance. They found that people are often willing to change their attitudes about LGBT rights when they find out that others with whom they share an identity (for example, as sports fans or members of a religious group) are also supporters of those rights-particularly when told about support from a leader of the group, and particularly if they find the information somewhat surprising. Fans of the Green Bay Packers football team were influenced by hearing that a Packers Hall-of-Famer is a supporter of LGBT rights. African Americans were influenced by hearing that the Black president of the United States is a supporter. Religious individuals were influenced by hearing that a religious leader is a supporter. And strong partisans were influenced by hearing that a leader of their party is a supporter. Through a series of engaging experiments and compelling evidence, Listen, We Need to Talk provides a blueprint for thinking about how to bring disparate groups together over contentious political issues.

Restoring Black Dignity with the Gospel

A CHOICE Outstanding Academic Title 2014! How can teachers transform classroom teaching and learning by making pedagogy more socially and culturally responsive, more relevant to students' lives, and more collaborative? How can they engage disaffected students in learning and at the same time promote deep understanding though high-quality teaching that goes beyond test preparation? This text for prospective and practicing teachers introduces engaging, innovative pedagogy for putting active and dramatic approaches to learning and teaching into action. Written in an accessible, conversational, and refreshingly honest style by a teacher and professor with over 30 years' experience, it features real examples of preschool, elementary, middle, and high school teachers working in actual classrooms in diverse settings. Their tales explore not only how, but also why, they have changed the way they teach. Photographs and stories of their classroom practice, along with summarizing charts of principles and strategies, both illuminate the critical, cross-curricular, and inquiry-based conceptual framework Edmiston develops and provide rich examples and straightforward guidelines that can support readers as they experiment with using active and dramatic approaches to dialogue, inquiry, building community, planning for exploration, and authentic assessment in their own classrooms.

God has placed deep longings in the heart of every human being, longings for beauty, greatness, fascination, intimacy, to be enjoyed, to be wholehearted, to make a lasting impact. Many of us have been taught to deny these longings. We've been told they are not of God. But the problem is not the longings--they are given of God and cannot be denied. Problems arise when we attempt to fulfill godly legitimate longings in ungodly, wrong ways.Only God can fulfill the longings He has given us. When we realize that our longings are godly and that God wants to fulfill them, we find freedom and joy. We experience intimacy with God in ways we never thought possible.

The Inclusive Economy: How to Bring Wealth to America's Poor energetically challenges the conventional wisdom of both the right and the left that underlies much of the contemporary debate over poverty and welfare policy. Author and national public policy expert Michael Tanner takes to task conservative critiques of a "culture of poverty" for their failure to account for the structural circumstances in which the poor live. In addition, he criticizes liberal calls for fighting poverty primarily through greater redistribution of wealth and new government programs. Rather than engaging in yet another debate over which government programs should be increased or decreased by billions of dollars, Tanner calls for an end to policies that have continued to push people into poverty. Combining social justice with limited government, his plan includes reforming the criminal justice system and curtailing the War on Drugs, bringing down the cost of housing, reforming education to give more control and choice to parents, and making it easier to bank, save, borrow, and invest. The comprehensive evidence provided in The Inclusive Economy is overwhelming: economic growth lifts more people out of poverty than any achievable amount of redistribution does. As Tanner notes, "we need a new debate, one that moves beyond our current approach to fighting poverty to focus on what works rather than on noble sentiments or good intentions." The Inclusive Economy is a major step forward in that debate.

Kind, encouraging, and humorous, Karen Ehman helps us learn the essential practice of using our words more effectively--alleviating heartache and regret, reducing relational tension and conflict, lessening our stress levels, and growing our relationship with God. From Bible times to modern times women have struggled with their words. What to say and how to say it. What not to say. When it is best to remain silent. And what to do when you've said something you wish you could now take back. In this book a woman whose mouth has gotten her into loads of trouble shares the hows (and how-not-tos) of dealing with the tongue. Beyond just a "how not to gossip" book, this book explores what the Bible says about the many ways we are to use our words and the times when we are to remain silent. Karen will cover using our speech to interact with friends, co-workers, family, and strangers as well as in the many places we use our words in private, in public, online, and in prayer. Even the words we say silently to ourselves. She will address unsolicited opinion-slinging, speaking the truth in love, not saying words just to people-please, and dealing with our verbal anger. Christian women struggle with their mouths. Even though we know that Scripture has much to say about how we are--and are not--to use our words, this is still an immense issue, causing heartache and strain not only in family relationships, but also in friendships, work, and church settings. The clear, concise, and cutting-edge medical-surgical nursing content in Medical-Surgical Nursing: Concepts & Practice, 2nd Edition provides the solid foundation you need to pass the NCLEX Examination and succeed as a new nurse. It builds on the fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, Medical-Surgical Nursing reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies. UNIQUE! LPN Threads share learning features with Elsevier's other LPN textbooks, providing a consistency across the Elsevier LPN curriculum. Key Terms include phonetic pronunciations and text page references. Key Points are located at the end of chapters and summarize chapter highlights. Overview of Anatomy and Physiology at the beginning of each body system chapter provides basic information for understanding the body system and its disorders. Nursing Process provides a consistent framework for disorders chapters. Evidence-Based Practice is highlighted with special icons indicating current research. Assignment Considerations boxes address situations in which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data/information for specific disorders. Elder Care Points boxes address the unique medical-surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical-surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical-surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for the NCLEX-PN Examination at the end of each chapter include alternate-item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant questions, allowing you to hone your critical thinking skills. UNIQUE! Best Practices are highlighted to show the latest evidence-based research related to interventions. Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence-based practices. UNIQUE! Icons in page margins point to related animations, video clips, additional content, and related resources on the Evolve site.

Being a pastor is a complicated calling. Pastors are often pulled in multiple directions and must "become all things to all people" (1 Cor. 9:22). What does the New Testament say (or not say) about the pastoral calling? And what can we learn about it from the apostle Paul? According to popular New Testament scholar Scot McKnight, pastoring must begin first and foremost with spiritual formation, which plays a vital role in the life and ministry of the pastor. As leaders, pastors both create and nurture culture in a church. The biblical vision for that culture is Christofornity, or Christlikeness. Grounding pastoral ministry in the pastoral praxis of the apostle Paul, McKnight shows that nurturing Christofornity was at the heart of the Pauline mission. The pastor's central calling, then, is to mediate Christ in everything. McKnight explores seven dimensions that illustrate this concept--friendship, siblings, generosity, storytelling, witness, subverting the world, and wisdom--as he calls pastors to be conformed to Christ and to nurture a culture of Christofornity in their churches.

What is the way forward for the church? Tragically, in recent years, Christians have gotten used to revelations of abuses of many kinds in our most respected churches—from Willow Creek to Harvest, from Southern Baptist pastors to Sovereign Grace churches. Respected author and theologian Scot McKnight and former Willow Creek member Laura Barringer wrote this book to paint a pathway forward for the church. We need a better way. The sad truth is that churches of all shapes and sizes are susceptible to abuses of power, sexual abuse, and spiritual abuse. Abuses occur most frequently when Christians neglect to create a culture that resists abuse and promotes healing, safety, and spiritual growth. How do we keep these devastating events from repeating themselves? We need a map to get us from where we are today to where we ought to be as the body of Christ. That map is in a mysterious and beautiful little Hebrew word in Scripture that we translate “good,” the word tov. In this book, McKnight and Barringer explore the concept of tov—unpacking its richness and how it can help Christians and churches rise up to fulfill their true calling as imitators of Jesus.

A Christian Handbook For Emotional Transformation Emotions are a very important part of the Christian life. Emotional intelligence (EQ) is especially important when it comes to leadership and ministry skills. Biblical EQ uses the Bible and the character of Jesus to show how we can grow both spiritually and emotionally into mature human beings. Biblical EQ uses the life and character of Jesus as the model to emulate. Jesus Christ shows us what it is like to be a perfect person, whose emotions are both well-expressed and well-managed in love. The Holy Spirit is God resident in human personality, with the power to change us into the image of Jesus Christ. We are not left alone to change ourselves! God the Holy Spirit will help us! So Biblical EQ will take you on a bible-based journey through the world of emotional growth and emotional intelligence. You will learn how to change your perspectives, your beliefs, thoughts and intents of the heart, manage your physical reactions to emotions, control stress, have faith and mastery in life and how to grow in love, social skills and Christian leadership.

This book provides a Biblical and theological underpinning to the concept of ethnic liberation in Nigeria. It argues that the present economic, political, ethnic and religious structure of Nigeria represents injustice and oppression to those in the so-called “minority groups”. The situation has resulted in division, unrest and mutual suspicion among people of different ethnicities and religions. Bringing together liberation theology, biblical hermeneutical and social studies to foster dialogue between theories and human relations in Nigeria, the book presents an exegesis of Galatians 3:26-29, weaving out a theology of ethnic liberation. As such, it will be useful to theologians, students of religious studies and philosophy, and political historians, as well as the general reader interested in African studies.

Mission in the New Testament

The One Anothers is a study of 50 commands given to Christian brothers, by many of the authors of the New Testament and commands of Jesus. Speaking directly to fellow Christian, these 50 commands tell us how we are to treat and relate to our fellow Christian brothers and sisters in Christ. By joining together into a Christian family, we are expected to act in a certain way. All of these commands are ways we are directed to act and feel towards our brothers. My pastor said these are “house rules for Christians”. This is key for a couple of reasons, we are directed to help our brothers in so many ways, and we each need to set an example of how Christians are to live with, interact with and to love one another. The book is teacher friendly. Each lesson comes with a list of questions to encourage discussion.

This volume collects essays that approach notions of creating, maintaining, and crossing boundaries in the history of the English language. The concept of boundaries is variously defined within linguistics depending on the theoretical framework, from formal and theoretical perspectives to specific fields and more empirical, physical, and perceptual angles. The contributions to this volume do not take one particular theoretical or methodological approach but, instead, explore how examining various types of boundaries—linguistic, conceptual, analytical, generic, physical—helps us illuminate and account for historical use, variation, and change in English. In their exploration of various topics in the history of English, contributions ask a range of questions: what does it mean to set up boundaries between time periods? When do language varieties have distinct boundaries and when do they overlap? Where do language users draw up clausal, constructional, semantic, phonetic/phonological boundaries? Thus, the chapters explore not only how boundaries illustrate synchronic and diachronic features in the history of the English language but also what we can discover by questioning perceived or actual boundaries.

The Emotional Intelligence of Jesus introduces readers to key principles of emotional intelligence—self-awareness, empathy, assertiveness, optimism, and stress management—illustrating them in the life of Jesus and offering practical applications for readers today.

“A delight and highly recommended.” —Booklist “Showcases the truth and fullness of people of color.” —Book Riot In the tradition of Best American Short Stories comes Everyday People: The Color of Life, a dazzling collection of contemporary short fiction. Everyday People is a thoughtfully curated anthology of short stories that presents new and renowned work by established and emerging writers of color. It illustrates the dynamics of character and culture that reflect familial strife, political conflict, and personal turmoil through an array of stories that reveal the depth of the human experience. Representing a wide range of styles, themes, and perspectives, these selected stories depict moments that linger—crossroads to be navigated, relationships, epiphanies, and times of doubt, loss, and discovery. A celebration of writing and expression, Everyday People brings to light the rich tapestry that binds us all. The contributors are an eclectic mix of award-winning and critically lauded writers, including Mia Alvar, Carleigh Baker, Nana Brew-Hammond, Glendaliz Camacho, Alexander Chee, Mitchell S. Jackson, Yiyun Li, Allison Mills, Courttia Newland, Dennis Norris II, Jason Reynolds, Nelly Rosario, Hasanthika Sirisena, and Brandon Taylor. Some of the proceeds from the sale of Everyday People will benefit the Rhode Island Writers Colony, a nonprofit organization founded by the late Brook Stephenson that provides space for speculation, production, and experimentation by writers of color.

The Girl with a Missionary Dream

This book presents a comprehensive articulation of New Testament teachings on mission from a contemporary American evangelical standpoint. Mission in the New Testament contributes a fresh statement of the biblical foundations of mission, serving as a catalyst for completion of the church's universal mission in this generation. After investigating the historical background of the idea of mission in the Hebrew Scriptures, inter-testamental Judaism, the life of Jesus and the beginnings of the church, the book proceeds in a roughly canonical order through the New Testament. Essays analyze the works of Paul, the Synoptic gospels, Acts of the Apostles, the General Epistles, and the Book of Revelation. Well-versed in the historical-critical method of biblical interpretation, editors and contributors alike offer a cogent argument for recovering the "missional horizon" of the New Testament.

For twenty-five years, Debby Irving sensed inexplicable racial tensions in her personal and professional relationships. As a colleague and neighbor, she worried about offending people she dearly wanted to befriend. As an arts administrator, she didn't understand why her diversity efforts lacked traction. As a teacher, she found her best efforts to reach out to students and families of color left her wondering what she was missing. Then, in 2009, one "aha!" moment launched an adventure of discovery and insight that drastically shifted her worldview and upended her life plan. In Waking Up White, Irving tells her often cringe-worthy story with such openness that readers will turn every page rooting for her-and ultimately for all of us.

Drama-based Pedagogy promotes the relationship between drama and education, championing the versatility of drama-based teaching tools designed in conjunction with classroom curriculum. Written by highly experienced teachers who have collated their work over an extended period of time, this book bridges the gap between drama in education theories and actual classroom practice. With its extensive range of tried and tested strategies, plans and activities, Drama-based Pedagogy provides a uniquely accessible yet scholarly manual for those who work, think, train and learn in educational or artistic settings and contexts. It is the perfect companion to professional development and university courses, as well as for already established educators who wish to increase student discourse, reflection and understanding of virtually any subject matter in an authentic and communicative way.

"Who do you say that I am?" This question that Jesus asked of his disciples, so central to his mission, became equally central to the fledgling church. How would it respond to the Gnostics who answered by saying Jesus was less than fully human? How would it respond to the Arians who contended he was less than fully God? It was these challenges that ultimately provoked the Council of Nicaea in A.D. 325. In this volume covering the first half of the article in the Nicene Creed on God the Son, John Anthony McGuckin shows how it countered these two errant poles by equally stressing Jesus' authentic humanity (that is, his fleshliness and real embodiment in space and time) and his spiritual glory or full divinity. One cottage industry among some historical theologians, he notes, has been to live in a fever of conspiracy theory where orthodox oppressors dealt heavily-handedly with poor heretics. Or the picture is painted of ancient grassroots inclusivists being suppressed by establishment elites. The reality was far from such romantic notions. It was in fact the reverse. The church who denounced these errors did so in the name of a greater inclusivity based on common sense and common education. The debate was conducted generations before Christian bishops could ever call on the assistance of secular power to enforce their views. Establishing the creeds was not a reactionary movement of censorship but rather one concerned with the deepest aspects of quality control. Ultimately, what was and is at stake is not fussy dogmatism but the central gospel message of God's stooping "down in mercy to enter the life of his creatures and share their sorrows with them. He has lifted up the weak and the broken to himself, and he healed their pain by abolishing their alienation."
