Cross-references are provided among Chamorro words that are semantically related. An English-Chamorro finder list, based on selected words in the English definitions, is also provided.

*2020 sucked. It's been a year of bushfires, floods, a recession, a global pandemic and Kanye West's presidential campaign. But it was also the year we all watched Hamilton, baked sourdough, had dinner parties on Zoom and drank constantly - okay, so maybe that wasn't such a great thing either. Amid the non-stop trauma, however, it's been a year of togetherness and community spirit - though mostly trauma. But as we limp towards 2021, it's time to look back at it all, and laugh. Because at least we all suffered through this year together. Not literally together - that was generally illegal. But we were side by side in our bubbles, all going through the same thing. The 2020 Dictionary is an invaluable record of all we learned in the year the world turned to sh*t, helpfully collected in alphabetical order, with jokes where appropriate, as well as in some places where they probably aren't. What They Said About This Book* The 2020 Dictionary will just disappear in the spring. Donald Trump I take full responsibility for blaming the health minister for this book. Daniel Andrews Stay six feet away from the book at all times. Dr Anthony Fauci This tome feels rather sesquipedalian. Boris Johnson This book is not allowed into Queensland unless it's playing footy. Annastacia Palaszczuk I've asked Angus Taylor to investigate burning this book as an energy source. Scott Morrison *These quotes are as real as hydroxychloroquine is effective against Covid*

Second-language varieties of English in the South Pacific have received scant attention, until now. This monograph offers the first book-length analysis of the sociolinguistics and morphosyntax of three representatives of South Pacific L2 English in comparison - two of which have never been described linguistically. The book describes the spread of English, its current status and use in the three island states and compares the most frequent and salient morphosyntactic features to corresponding structures in Asian and African Englishes and the Oceanic substrate languages. As part of a larger theoretical discussion on the multiple factors that determine the evolution and dynamics of L2 varieties in general, Mufwene's feature pool model is extended to a new model that integrates cognitive aspects of language acquisition and use, typological aspects of the languages/varieties involved and socio-cultural motivations of language use. The book also examines the role of New Zealand English as a potential epicentre in the South Pacific and considers ethical and methodological issues of linguistic field research.

This volume contains a comprehensive corpus-based study of prepositional constructions in written Fiji English. It explores the endo- and exonormative dynamics of norm-giving and norm-developing varieties and contributes to our understanding of structural nativization and variety formation in a multi-ethnic setting. The book provides an account of the sociolinguistic development of English in Fiji against the backdrop of the country's colonial and post-independence history, with special focus on the Indo-Fijian part of the population. Drawing on the written sections of the Indian, Great Britain, New Zealand and preliminary Fiji components of the International Corpus of English, quantitative and qualitative analyses of prepositional phenomena are conducted on the word level (frequency, semantic effects and stylistic variation), phrase level (productivity in verb-particle combinations), and pattern level (prepositions and -ing clauses). The book will be relevant to scholars interested in lexico-grammar, variety and corpus linguistics, and sociolinguistics in general.

This work is directed to those who want to learn more about the Fijian language. It is intended as a reference work, treating in detail such topics as verb and noun classification, transitivity, the phonological hierarchy, orthography, specification, possession, subordination, and the definite article (among others). In addition, it is an attempt to fit these pieces together into a unified picture of the structure of the language.

Judges report, Montana NZ Book Awards 2000: "This is an excellent story, beautifully written and skillfully mixing the personal with the political."

While indigenous peoples make up around 370 million of the world's population - some 5 per cent - they constitute around one-third of the world's 900 million extremely poor rural people. Every day, indigenous communities all over the world face issues of violence and brutality. Indigenous peoples are stewards of some of the most biologically diverse areas of the globe, and their biological and cultural wealth has allowed indigenous peoples to gather a wealth of traditional knowledge which is of immense value to all humankind. The publication discusses many of the issues addressed by the Declaration on the Rights of Indigenous Peoples and is a cooperative effort of independent experts working with the Secretariat of the Permanent Forum on Indigenous Issues. It covers poverty and well-being, culture, environment, contemporary education, health, human rights, and includes a chapter on emerging issues.

One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, Things Fall Apart is the compelling story of one man's battle to protect his community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease. 'His courage and generosity are made manifest in the work' Toni Morrison 'The writer in whose company the prison walls fell down' Nelson Mandela 'A great book, that bespeaks a great, brave, kind, human spirit' John Updike With an Introduction by Biyi Bandele

Resistance and Persuasion is the first book to analyze the nature of resistance and demonstrate how it can be reduced, overcome, or used to promote persuasion. By examining resistance, and providing strategies for overcoming it, this new book generates insight into new facets of influence and persuasion. With contributions from the leaders in the field, this book presents original ideas and research that demonstrate how understanding resistance can improve persuasion, compliance, and social influence. Many of the authors present their research for the first time. Four faces of resistance are identified: reactance, distrust, scrutiny, and inertia. The concluding chapter summarizes the book's theoretical contributions and establishes a resistance-based research agenda for persuasion and attitude change. This new book helps to establish resistance as a legitimate sub-field of persuasion that is equal in force to influence. Resistance and Persuasion offers many new revelations about persuasion: *Acknowledging resistance helps to reduce it. *Raising reactance makes a strong message more persuasive. *Putting arguments into a narrative increases their influence. *Identifying illegitimate sources of information strengthens the influence of legitimate sources. *Looking ahead reduces resistance to persuasive attempts. This volume will appeal to researchers and students from a variety of disciplines including social, cognitive, and health psychology, communication, marketing, political science, journalism, and education.
