Find your way around the New York City subway! This book introduces the idea of graphic design as a way to solve problems and challenges, such as creating a map that can be understood by all New Yorkers and out-of-towners. Author and illustrator Emiliano Ponzi uses depictions of trains, subway stations, and the NYC skyline to create a love letter to the city. A groundbreaking work of information design, the subway map, designed by Massimo Vignelli, is an iconic work used by over a billion people every year. The Museum of Modern Art acquired the original 1972 diagram, along with the 1970 graphics standards manual Vignelli created for signage and station information, in 2004. The map is intimately tied to MoMA's history, as it was a MoMA curator, Mildred Constantine, who recommended that New York City's Metropolitan Transit Authority commission the map from the Italian designer. A sweeping and poignant story of Ashkenazi Jews fleeing the Russian pogroms at the end of the 19th Century, as well as a parable of the making of a modern society and the extent to which religion and mysticism meet. Inspired by a story told to the author by his grandmother. For the family of the little red-headed Malka, trading the Russian shtetl for the Argentine pampas isn't so easy. Even in a country eager to populate its vast territories, the immigrants discover that their new home isn't the promised land. They encounter hostility from both man and nature, as they struggle through droughts and locusts in an attempt to cultivate the arid soil. When misery pushes them to the extreme, Malka's uncle is visited by the prophet Elias, who advises that he create a Golem--the mythical creature fashioned from earth and endowed with life by engraving on his body the word Emet ("Truth")--to pose as a man and aid the immigrants. When years later the adult Malka is visited by Elias, the events of her youth force her to decide whether or not she can maintain her silence--with fate and divine justice hanging in the balance. Winner of the Best Foreign Graphic Album award at the Angoulme Festival.

"Evens is the finest ambassador for Belgian illustration since Hergé." --The Guardian Brecht Evens, the award-winning author of *The Wrong Place* and *The Making Of*, returns with an unsettling graphic novel about a little girl and her imaginary feline companion. Iconoclastic in his cartooning and page layouts, subtle in his plotting, and deft in his capturing of the human experience, Evens has crafted a tangled, dark masterwork. A shape-shifter who tells Christine anything she wants to hear, Panther begins taking over Christine's life, alienating her from her other toys and friends. The Adventures of Herge

A GRAPHIC BIOGRAPHY OF TINTIN'S CREATOR by Jose-Louis Bocquet and Jean-Luc Fromental, Illustrated by Stanislas Barthélémy The Adventures of Hergé is a biographical comic about the world-renowned comics artist Georges Prosper Remi, better known by his pen name, Hergé. Meticulously researched, with references to many of the Tintin albums and complete with a bibliography and mini-bios for each of the main "characters," the biography is appropriately drawn in Hergé's iconic clear line style as an homage to the Tintin adventures that have commanded the attention of readers across the world and of many generations. Seven-year-old Hergé first discovered his love of drawing in 1914 when his mother gave him some crayons to stay out of trouble. He continued drawing in

school when he fatefully met the editor of XXe Siècle magazine, where Tintin first appeared. His popularity skyrocketed from the 1930s through post-World War Two. Hergé was perceived by some to have aided the Nazi government in Belgium by continuing to publish Tintin in a government-sanctioned magazine, and he was briefly imprisoned in the aftermath of the war and narrowly escaped execution. Also covered are his marriage troubles in the 1950s and subsequent affair with Fanny Vlamynck, who went on to become his lifelong partner; his late career in the 1960s, as his interest in Tintin waned and he occasionally "disappeared" for weeks at a time as he contemplated giving up his career to become a fine-arts painter; and a recounting of a humorous encounter with Andy Warhol.

This book is published to coincide with an exhibition of the same name in the Museum Félicien Rops and the Maison de la Culture in Namur. The central theme is the tree, from ancient times to present day art. The tree has always been a source of attraction to men: mystery, protection and veneration. From the trees of good and evil in manuscripts dating back to the Middle Ages, up to the symbolist vision of nineteenth-century artists, the tree has intrigued and fascinated. In our time, contemporary artists continue to be inclined towards this natural element, attempting to grasp its essence. The theme is an inexhaustible source of inspiration to various artistic disciplines, from painting and sculpture to video and photography. Text in English and French. 75 colour illustrations
