enhance the child's knowledge and awareness of the many parts of the body responsible for human growth, health, and life-sustaining activities. The book is organized into three parts: the outside of the body, the inside of the body, and caring for the body. Children will learn about the functions of major organs and systems of the body. They will explore ways in which the sense organs help them learn about their surroundings. They will become aware of how the body protects itself and how it expresses emotion through gestures, tears, and laughter. And they will learn about how they can maintain and protect their body through proper nutrition, exercise, rest, hygiene, and
