*"No thali is complete without those lovely spicy tidbits on the side. The book is replete with trivia to regale your friends over beer or kaapi (bet you didn't know the ubiquitous dosa can be spelt in more ways than you can find fillings to stuff in it)!" – Dev Nadkarni. The book has selected essays on general subjects as well as the author's observations of life in Singapore. The errant but smart-cookie domestic help, the glib chicanery of door-to-door salespeople, the virtues of the humble domestic broom, the street corner scrap dealer, smartphones, a whole list of vegetarian delights... nothing is unimportant enough for the author not to expand into a three-hundred-and-something word piece. It's cabbages and kings at a whole new level! Bifocals and a Walking Stick is like a thali brimming with endless goodies and then some. Etymology, linguistics, history, philosophy, sociology, technology – and that's just a few of the topics that the book touches upon. And dry as those subjects might seem, they're contextualised in a slice-of-life sort of way. And then there are the travelogues – from Luxembourg to Singapore and Mangalore by ship, air, road and rail.*

*While Western Jain scholarship has focused on those texts and practices favoring male participation, the Jain community itself relies heavily on lay women's participation for religious education, the performance of key rituals, and the locus of religious knowledge. In this fieldwork-based study, Whitney Kelling attempts to reconcile these women's understanding of Jainism with the religion as presented in the existing scholarship. Jain women, she shows, both accept and rewrite the idealized roles received from religious texts, practices, and social expectation, according to which female religiosity is a symbol of Jain perfection. This volume describes these women's interpretations of their religion, not as folklore or popular religion, but as a theology that recreates Jainism in a form which honors their own participation.*

*This book is a valuable resource for the increasing body of researchers and practitioners in the field of geospatial technologies. Written by leading researchers and experts it is designed in such a way that technical achievements and challenges of geospatial computing applications are followed by various applications developed for society. As such, they serve as a bridge between technologists and solution developers, which is critical in the context of developing countries. There have been significant advances in geospatial technologies in India in the last decade, including advances in spatial data infrastructures, geocomputation and spatial databases, and innovative applications in natural resource development. Ranging from LIDAR standards, to data integration using ontologies, and mobile computing, such progress enhances the utility of the technology for both urban and rural development. This book discusses these achievements and considers the way forward.*

This paper describes the role of public transport and the nature and incidence of transport subsidies in Mumbai, India. Mumbai has an extensive rail and bus network, and public transport is used for over 75 percent of all motorized trips in Greater Mumbai. Both rail and bus fares in Mumbai are subsidized: BEST, which operates public buses in Mumbai, is also an electric utility, and subsidizes bus fares from electricity revenues. We analyze the incidence of these subsidies, and their effect on mode choice, using data from a survey of households in Greater Mumbai. In Mumbai, as in many cities, the middle class is more likely to use public transport for travel than the poor. The poor, however, also use public transit, and their expenditure on public transit constitutes, on average, a larger share of their income than it does for the middle class. It is, therefore, the case that the poor benefit from transit subsidies in Mumbai, as well as the middle and upper-middle classes; however, the poorest 27 percent of the population receives only 19 percent of bus subsidies and 15.5 percent of rail subsidies. Indeed, 26 percent of the lowest income households surveyed do not use rail, while 10 percent do not use bus, implying that they receive no transit subsidies. Expenditure on transport accounts for 16 percent of income in the lowest income category ( Reasoning is equally weighed section in any competitive examination. Reasoning tests the thinking power and mind applicability skills of the candidates. The questions on reasoning asked in various competitive examinations are not easy to solve without having enough practice. Verbal & Analytical Reasoning will help candidates master the 'Tricks of the Trade' as it covers verbal and analytical reasoning very much comprehensively. This book has been divided into two Sections - Verbal Reasoning and Analytical Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Verbal Reasoning section has been divided into 21 chapters covering Analogy, Classification, Series, Coding-Decoding, Logical Arrangement of Words, Mathematical Operation, Venn Diagram, Clocks, Calendar, Decision Making, Input-Output, Puzzles, Data Sufficiency, etc whereas the Analytical Reasoning section has been divided into eight chapters covering Statement & Arguments, Statement & Assumptions, Course of Action, Passage & Conclusions, Cause & Effects, Syllogism, etc. Ample number of solved problems have been covered in each chapter followed by practice exercises at the end to help aspirants practice the concepts discussed in each chapter. Also the book contains previous years' solved questions of different competitive examinations like CAT, XAT, UPSC, SSC, etc to help aspirants get an insight into the types of reasoning questions asked. The book will be highly useful for aspirants preparing for Management (CAT, XAT, CMAT, IIFT, SNAP & other), Bank (PO & Clerk), SSC (CGL, 10+2, Steno, FCI, CPO & Multitasking), LIC (AAO & ADO), CLAT, RRB, UPSC and other state PSC Exams. As the book covers Verbal and Analytical Reasoning both in detail with ample number of solved problems, it for sure will help aspirants prepare both the types in a thorough manner and score high in the upcoming competitive & recruitment exams.

Mumbai is an ever-evolving city, bustling and brimming, never sleeping for a wink. But the past four decades brought upheavals of great magnitude that shaped the city as we know today. Marred by communal riots, gang wars and terrorism, the spirit of Mumbai has emerged indomitable every single time. Born and raised in the lanes of Bombay 3, this is the story of Jagan Kumar who dreams of being a television journalist and changing the world. But once he achieves this, he realises that television journalism has lost its path, now afflicted with sensationalism, corruption and bias. As a crime reporter, he comes across various unscrupulous means that law enforcement agencies adopt to combat organised crime syndicates. He is shocked to witness interdepartmental rivalry that often jeopardises public security. Disenchanted, in conflict with his conscience and confused about his calling, he is about to quit when something happens that changes the course of his life. Bombay 3 begins from the bylanes of old Bombay the seventies and then takes you to Mosul in ISIS's Iraq of 2014 and finally to the streets of Bangkok where the underworld of Mumbai has spread its tentacles. A fast-paced thriller, it answers certain questions about life in Mumbai and raises a few new ones.

Mumbai by bus and train is an extensive guide to Mumbai. It focuses on numerous fascinating districts that show the city's versatilty and complexity. Mumbai by bus and train, South Bombay focuses on 11 parts of town which are located in the south of the city. The travel guide gives in-depth explanations of how to navigate through the city by local train, bus, metro, monorail, auto rickshaw, taxi and ferry. It also provides historical, cultural and practical information that enables travellers to explore this fascinating city successfully on their own. This book is an invaluable resource for the independently-minded traveller, keen to go off the beaten track and really get to know this captivating megacity. http://mumbaibusbustrain.com/

He lives in the shadows all his life. Invisible, yet observant, staring at the greyness, trying to unravel an un-unravelable web for meaning, for information that his master so impatiently needs. Beyond the visible frontiers of the nation, there exists a realm that is invisible to many. A realm that is defended by very special warriors. The Intelligence officers. Sneaky and shadowy, these officers remain engaged in a constant battle to outfox the enemy. The defense of this realm determines the nation's capability to thwart subversive threats. Threats that can compromise national security to the point of toppling governments or losing territory. It could mean the allegiance of a region or a section of people being lost to the enemy, or even the death of democracy itself! What are the unseen dangers that our nation faces today and how does our Intelligence agency match up to the challenge? How do we unleash the full power of Intelligence, of Knowing?
