

New Holland Construction Maintenance Inspection Checklist

Exploring advances and strengthening communications among researchers in manufacturing and construction technologies, this book covers nondestructive testing and evaluation methods. Drawing on a wide range of experts, it provides insights from every sector of the field. Based on a three-day conference titled "Nondestructive Testing and Evaluation for Manufacturing and Construction" held on the campus of the University of Illinois at Urbana-Champaign, the papers presented in the book foster development of new and innovative methods.

Bridge Engineering

As the emphasis in construction moves from building new bridges to maintenance and rehabilitation of existing stock, bridge management is becoming an increasingly important subject. 'Bridge Management' is a comprehensive, single volume book for professionals and postgraduates on bridge management. It focuses on inspection, assessment, testing, evaluation, repair, as well as financial aspects such as whole life costing. Highly illustrated with colour, and including examples of practice and techniques drawn from around the world, the book will be invaluable to the bridge engineer. GIVES comprehensive coverage of this important subject COVERS not only testing, assessment etc but also the financial/management issues HIGHLY illustrated with line drawings and photographs including colour
