The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

Forever Wild, Forever Home invites readers to discover the magic of The Wild Animal Sanctuary in Keenesburg, Colorado, the premier large carnivore sanctuary in the world. In 1980, Pat Craig rescued a baby jaguar he christened Freckles and took his first bold steps on a forty-year journey to combat the growing crisis of exotic animal captivity, abuse, and trafficking – one rescue at a time. Today more than 200 bears, 60 African lions, and 70 tigers, as well as jaguars, leopards, mountain lions, wolves, and other exotic animals, both large and small, enjoy peace, comfort, and contentment in enormous habitats on thousands of acres of The Wild Animal

Sanctuary's prairie and canyonlands. Rescued from mostly horrific situations, they are survivors, with much to teach us about courage, resilience, and hope. Their lives resonate with our own. With over 100 color photos, this absorbing, thoughtful, and timely narrative offers an unprecedented, behind-the-scenes look at what it is really like to care for wild carnivores. Both heartwarming and humorous, Forever Wild, Forever Home honors the nobility and wellbeing of the animals who call the Sanctuary home, and the heroic and gratifying labors of those who care for them. Join Sanctuary teams on rescues of giant Alaskan Kodiak bears languishing in the Florida

tropics, a lion held captive by a fortune teller in a tiny Mexican town, two big cats marooned and starving on a typhoon-ravaged island in the Pacific Ocean, and thirty-nine tigers owned by Joe Exotic, the “Tiger King” of Netflix fame. Meet Colo Colo, an angry African lion from Bolivia; Tasha Joy, a tiger who didn’t know she was a tiger; the ever-busy grizzly bears, Tiny who tips the scales at 1,000 pounds and his friend Natasha; Diego, a white tiger; Jumanji, a black leopard; Lambert, a lion who finally learns to roar – and many more. Learn how the Mile into the Wild Walkway, the longest elevated pedestrian footbridge in the world, enables sky-high

visitors to see wild animals in vast habitats; how staff and volunteers create cozy houses and unique playgrounds for the Sanctuary's (mostly) furry residents; and what happens when it's time for a large carnivore to visit the doctor or dentist. At The Wild Animal Sanctuary, tigers chuff in greeting, bears bask under brilliantly blue skies, mountain lions purr with joy, and African lions roar in winter. The Sanctuary is often seen as the last hope for the animals who are rescued and brought here to their forever home. But the thousands of people who visit, support, work, and volunteer here know that this is the place where hope begins.

A former show dog breeder and retired Veterinary Technician of over 20 years gives you a peek behind the Treatment Doors of Veterinary Hospitals and the rather harsh realities of the dog breeding world.

From an experienced and highly respected authority in the veterinary world comes a comprehensive must-have guide to everything you need to know to ensure high-quality health care for your beloved animal companions. Our pets mean the world to us and we go out of our way to pamper them, from gourmet cat treats to doggie daycare. We should, of course, also demand the very best when it comes to their health. But how do we choose the right

veterinarian? How do we know if our pets are receiving proper medical treatment or the most effective therapy when they are sick? Remarkable progress has been made in veterinary medicine, but there is still much disparity in the health care provided for pets. Dr. Louise Murray cuts through the confusion, addresses the common concerns of pet owners, and arms you with knowledge so you can avoid substandard care. Inside you'll find

information on • how to choose a veterinarian • what to look for during your pet's exam • when it's time to seek out a specialist • how to make sure your pet is protected by up-to-date technology, safe anesthesia protocols, and advanced surgical techniques • proper pain management and adequate nursing care for your pet • the lowdown on vaccinations • the growing realm of alternative veterinary medicine • the latest pet insurance

plans • the use and misuse of steroid medication She also gives counsel on where to turn if you suspect improper care, and provides comforting advice on saying good-bye. On the heels of her family's beloved dog's death, one woman returns to the canines of her past in order to imagine

the human she hopes to become in the future in her memoir, What Is a Dog? Chloe Shaw is in a dog house of her own choosing. A married mother with kids, the death of Booker, her children's eldest family pet, has left her reeling and reckoning with her lifelong relationship with dogs. Unable to shake the feeling a year later, she asks her family for some time alone to be with nothing but her thoughts and remaining canines, Safari and Otter—only to find

the dogs of her past pawing at her every memory and running, sticks in mouths, back into her life. What follows is a meditation on one woman's life through the dogs she's loved and lost. Since she was a child, Shaw had learned to escape the hardest parts of being human by immersing herself in the lives of her canine companions, an adaptive attachment that carried her to adulthood. Yet, in marriage and motherhood, Shaw finds herself facing

her most human struggles yet. Her old ways of “being the dog” in the face of hardship prove destructive, and it’s not until she’s able to love herself and learn from the dogs of her past and present that can she truly thrive as a person, and show up for the family who needs her to be their person. With artful prose and a philosophical touch, Shaw takes us on an emotional journey anyone who has ever loved and lost a dog will connect with—and discovers

dogs do more than just make our lives better—they quietly (and sometimes loudly) pull us boldly toward the person we were always meant to be.

A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist The Yellow Birds Selected by the Modern Library as one of the 100 best

novels of all time Slaughterhouse-Five, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy

experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming “unstuck in time.” An instant bestseller, Slaughterhouse-Five made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut’s writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired

generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great,

urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves.” Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. “Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering

moral statement.”—The Boston Globe
