Decades of research have
demonstrated that the parent-

Online Library Sample Recommendation Letter For Daycare Worker

child dyad and the environment of the family – "which includes all primary caregivers – "are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other

Online Library Sample Recommendation Letter For Daycare Worker

caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his

Online Library Sample Recommendation Letter For Daycare Worker

experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and

Online Library Sample Recommendation Letter For Daycare Worker

beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including

Online Library Sample Recommendation Letter For Daycare Worker

feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood,

Online Library Sample Recommendation Letter For Daycare Worker

increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by

Online Library Sample Recommendation Letter For Daycare Worker

technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in

universal/preventive and

effective with parents of young
children and that support the
identified knowledge, attitudes,

and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations

Online Library Sample Recommendation Letter For Daycare Worker

directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is

Online Library Sample Recommendation Letter For Daycare Worker

meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers--and learners--every waking minute. Well before formal schooling begins, children's early experiences lay the

Online Library Sample Recommendation Letter For Daycare Worker

foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What

Online Library Sample Recommendation Letter For Daycare Worker

will it take to provide better early education and care for our children between the ages of two and five? Eager to Learn explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of early learning. Key discoveries in how young children learn are reviewed

Online Library Sample Recommendation Letter For Daycare Worker

in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to early learning. Perhaps most significant,

Online Library Sample Recommendation Letter For Daycare Worker

the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of

Online Library Sample Recommendation Letter For Daycare Worker

teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role of the teacher, the importance of peer interactions, and other relationships in the child's life. Learning

Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning.

Preparation and continuing development of teachers. Eager to Learn presents a

Online Library Sample Recommendation Letter For Daycare Worker

comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

"As demand for child care in the United States has grown, so have calls for improving its quality. One approach that has been gaining momentum involves

Online Library Sample Recommendation Letter For Daycare Worker

developing and implementing quality rating and improvement systems (QRISs), multi-component assessments designed to make childcare quality transparent to child-care providers, parents, and policymakers. By providing simple, independent public ratings of child-care quality along with feedback, technical assistance, and

Online Library Sample Recommendation Letter For Daycare Worker

improvement incentives, QRIS supporters posit that these systems can inform parental choice and motivate and support quality improvements. This monograph discusses the development and implementation of QRISs in Oklahoma, Colorado, North Carolina, Pennsylvania, and Ohio, five states that were among the

Online Library Sample Recommendation Letter For Daycare Worker

first to develop a QRIS. Zellman and Perlman examine decisions that each state made in developing its QRIS, the challenges each faced in implementing its system, and the lessons that were learned during the process. The authors conclude with a series of recommendations for developing, designing, implementing,

Online Library Sample Recommendation Letter For Daycare Worker

evaluating, and refining QRISs based on study findings and lessons learned."--BOOK JACKET.
