A comprehensive introduction to turbomachines and their applications With up-to-date coverage of all types of turbomachinery for students and practitioners, Fundamentals of Turbomachinery covers machines from gas, steam, wind, and hydraulic turbines to simple pumps, fans, blowers, and compressors used throughout industry. After reviewing the history of turbomachinery and the fluid mechanical principles involved in their design and operation, the book focuses on the application and selection of machines for various uses, teaching basic theory as well as how to select the right machine for a specific use. With a practical emphasis on engineering applications of turbomachines, this book discusses the full range of both turbines and pumping devices. For each type, the author explains: \* Basic principles \* Preliminary design procedure \* Ideal performance characteristics \* Actual performance curves published by the manufacturers \* Application and appropriate selection of the machine Throughout, worked sample problems illustrate the principles discussed and end-of-chapter problems, employing both SI and the English system of units, provide practice to help solidify the reader's grasp of the material.

Just like in the fairy tale, a lavish ball was being held to find Sheik Malik a bride. There was a darker side to this story though. The urgency was due to several assassination attempts and Malik had to marry quickly and produce an heir. The stability of his country depended on constancy and conservative leadership. He couldn't allow his enemies to win. But he wasn't prepared for the silver clad goddess that caught his vision as she snuck down the servants' hallway. Nor was he prepared for her resistance. In a room full of beautiful women, his interest was captured by a beauty that wanted nothing to do with him. Except that she caught on fire when he touched her and her soft, sensuous body inflamed him with need. What was a man to do? Accept the challenge of convincing the lovely Shanelle to fall in love with him. Over a weekend of

passionate kisses and stolen passion, Shanelle and Malik discovered that protecting the kingdom could be quite exhilarating. Enjoy this short novella by Elizabeth Lennox! It is said that if the smell of the Himalayas creeps into a man's blood, he will return to the hills again and again, and will strive to live amongst them always. Ruskin Bond, master storyteller and connoisseur of the mysterious and macabre, shows how this love may persist to death and beyond. The stories in this collection are set amidst the mists and mellow magic of Bond's beloved mountains. The agents of the supernatural may be gentle like the fairy folk in 'On Fairy Hill', or malevolent like the well-dressed diners of 'The Prize'; humorous like the very proper witch, Miss Bellows, in 'The Black Cat', or tragic like the haunting Gulabi in 'Wilson's Bridge'. 'The Rakshasas' harks back to traditional hill spirits, while 'The Night of the Millennium' poises us tantalizingly on the brink of the future. Bond aficionados will meet familiar faces in 'Reunion at the Regal'.

Rounding off this collection is a gripping mystery, 'Who Killed the Rani?', which is evocative of life in hill stations some twenty years ago. And over all the stories looms the benevolent or brooding presence of the Himalayas, described with Bond's inimitable lyricism.

#1 New York Times bestselling author Catherine Coulter returns with another pulse-pounding thriller featuring FBI agents Dillon Savich and Lacey Sherlock... A serial killer is on the loose, and it's up to FBI agents Dillon Savich and Lacey Sherlock to bring him down. They soon discover that the killer has blood ties to an infamous and now long-dead monster. Savich and Sherlock are joined by agents Lucy Carlyle and Cooper McKnight, and the chase is on. At the same time, Agent Carlyle learns from her dying father that her grandfather didn't simply walk away from his family twenty-two years ago: he was, in fact, murdered by his wife, Lucy's grandmother. Determined to find the truth, Lucy moves into her grandmother's Chevy Chase mansion. What she finds, however, is a nightmare. Not only does she discover the truth of what happened all those years ago, but she faces a new mystery, one that has been passed down from mother to daughter for generations. As the hunt for the serial killer escalates, Savich realizes he's become the killer's focus, and perhaps the next victim. It's up to Lucy to stop this madness before it's too late.

This eagerly anticipated text from one of the worlds' leading academics in this field takes a truly international approach to this fascinating subject, providing a balanced

approach to both EU competition policy and US antitrust. The structure of the text allows flexibility for the teacher, so that they can teach from either a US, European approach or incorporate both. The text also includes contemporary topics not found in other texts of this kind such as Contestable Markets and Experimental Economics. To help instructors teach from this text, an Instructors Manual, PowerPoint Slides, and a Multiple-Choice Test bank are available to instructors from the supporting Online Resource Centre.

*Web programming is about more than creating and formatting webpages and websites, though that is often a starting point for many. Using scripting languages such as JavaScript, Perl and PH, it becomes possible to add a lot more functionality to a site. This book teaches the essentials of working with the most important web technologies. From client development using HTML and Javascript, through to full server side applications written in ASP and Perl, the complete web system is shown. Concentrating on immediately useful code rather than theory, this is a how-to book for practical and project based courses. The broad scope covered by this book begins by creating reasonably simple webpages with HTML, then working through related document and content tagging systems such as dynamic HTML and eventually XML.*

In addition to using a narrator, Sikia Macho, to fill us in on the broken politics of Kafira, centring around detention without trial, Imbuga deliberately delays the inciting action, the formation of the Green Party of Kafira which then challenges the hitherto political monolith called the National Party. The candidate of the new party, former detainee Pastor Mgei, wins the election, and thereby dethrones the so-called Chief of Chiefs. In The Green Cross of Kafira, Imbuga, with a renewed sense of urgency, addresses the theme of dictatorship in Africa, and completes his trilogy of the Kafira plays which begins with Betrayal in the city followed by Man of Kafira.*
