Mainstream society has often had a deeply rooted fear of intelligent women. Why do brilliant women make society ill at ease? Focusing on the US, Sherrie Inness and contributors explore this question in the context of the last two decades, arguing that more intelligent women are appearing in popular culture than ever before.

Does history have a ghost of a chance? Eddie, Adam, David. Three boys, three generations, one gift: the ability to travel through time. Through a portal of dreams, they can appear as ghosts, wherever and whenever they want. The first boy, Eddie, is the genius who has sworn to protect the past and carry on the dreamwalker's code. The second, Adam, is a haunter, a dream-terrorist, dead-set on nefarious ends. The third, David, is the neophyte who must fight for the future by keeping the other two apart! Can he surf the time warps, back and forth between 1940s London and today, to save the present from oblivion?

Why doesn't self-help help? Cultural critic Micki McGee puts forward this paradoxical question as she looks at a world where the market for self-improvement products--books, audiotapes, and extreme makeovers--is exploding, and there seems to be no end in sight. Rather than seeing narcissism at the root of the self-help craze, as others have contended, McGee shows a nation relying on self-competitive work world. Self-Help, Inc. reveals how makeover culture traps Americans in endless cycles of self-invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order. A lucid and fascinating treatment of the modern obsession with work and self-improvement, this lively book will strike a chord with its acute diagnosis of the self-help trap and its sharp social commentary on modern work and family life.

Girl, Wash Your Face

During the late 18th and early 19th centuries, there was a tubercular 'moment' in which perceptions of the consumptive disease became inextricably tied to contemporary concepts of beauty, playing out in the clothing fashions of the day. With the ravages of the illness widely regarded as conferring beauty on the sufferer, it became commonplace to regard tuberculosis as a positive affliction, one to be emulated in both beauty practices and dress. While medical writers of the time believed that the fashionable way of life of many women actually rendered them susceptible to the disease, Carolyn A. Day investigates the deliberate and widespread flouting of admonitions against these fashion practices in the pursuit of beauty. Through an exploration of contemporary social trends and medical advice revealed in medical writing, literature and personal papers, Consumptive Chic uncovers the intimate relationship between fashionable women's clothing, and medical understandings of the illness. Illustrated with over 40 full color fashion plates, caricatures, medical images, and photographs of original garments, this is a compelling story of the intimate relationship between the body, beauty, and disease - and the rise of 'tubercular chic'.

The Beauty Workbook

"I am Jugoslovenka" argues that queer-feminist artistic and political resistance were paradoxically enabled by socialist Yugoslavia's unique history of patriarchy and women's emancipation. Spanning performance and conceptual art, video works, film and pop music, lesbian activism and press photos of female snipers in the Yugoslav wars, the book analyses feminist resistance in a range of performative actions that manifest the radical embodiment of Yugoslavia's anti-fascist, transnational and feminist legacies. It covers celebrated and lesser-known artists from the 1970s to today, including Marina Abramovic, Sanja Ivekovic, Vlasta Delimar, Tanja Ostojic, Selma Seliman and Helena Janecic, along with music legends Lepa Brena and Esma Red Z epava. "I am Jugoslovenka" tells a unique story of women's resistance through the intersection of feminism, socialism and nationalism in East European visual culture.

**#1 NEW YORK TIMES BESTSELLER – OVER 3 MILLION COPIES SOLD** Do you ever suspect that everyone else has life figured out and you don't have a clue? If so, Rachel Hollis has something to tell you: that's a lie. If you have ever said any of these things to yourself . . . Something else will make me happy. I'm not a good mom. I will never get past this. I am defined by my weight. I should be further along by now. . . then you could benefit from the unflinching faith and rock-hard tenacity Rachel Hollis has in store for you. In this challenging but conversational book, Rachel exposes the twenty lies and misconceptions that too often hold us back from living joyfully and productively, lies we've told ourselves so often we don't even hear them anymore. Rachel is real and talks about real issues.

More than that, she reveals the specific practical strategies that helped her move past them. In the writing process, she encourages, entertains, and even kicks a little butt, all to convince you to do whatever it takes to get real and become the joyful, confident woman you were meant to be. Because you really can live with passion and hustle – and give yourself grace without giving up.

This book examines evolving pop culture representations of sex and relationships from the 1970s onwards, to demonstrate parallels between the strength of the feminist movement and positive portrayals of women's sexuality. In charting changes in the sex and relationship content of women's magazines over time, this analysis reveals that despite surface-level changes in sexual and relationship content, the underlying paradigm of hetero-monogamy remains unchanged. Despite a seemingly more diverse, empowered and liberated sexuality for women in contemporary magazines, in reality, such feminist rhetoric masks an enduring model of sexuality, which rests on women's sexual and emotional maintenance of male partners and their own self-objectification and self-surveillance. Where substantive changes can be identified, they rise and fall in tandem with feminism. By demonstrating this empirical relationship between cultural products and feminist organising, the book validates an assumption that has rarely been tested: that a feminist social milieu improves cultural narratives about sexuality for women. Sex, Feminism and Lesbian Desire builds on ground-breaking feminist texts such as Susan Faludi's Backlash to present an empirically focused, comprehensive study interrogating changes in content over the lifetime of women's magazines. By charting the representation of sex and relationships in two women's magazines—Cosmopolitan and Cleo—since the 1970s through an analysis of over 6,500 magazine pages and 1,500 articles, this timely work interrogates—and ultimately complicates—the apparent linear progression of feminism. This book is suitable for researchers and students in women's and gender studies, queer studies, LGBT studies, media studies, cultural studies and sociology.

Here is the history we've been waiting for . . . erudite and entertaining . . . she shows how pictures really did change our world. Her shrewd selection of over 600 fascinating photos (many in colour) illustrate a history that meets the ultimate test: open to any page and you're hooked . . . and its free from tormenting academic jargon. Camera Arts This groundbreaking survey of international photography, which examines the discipline across the full range of its uses by both professionals and amateurs, has been expanded and brought up to date for this second edition. Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art, science, social science, travel, war, fashion, the mass media and individual practitioners. These broad topics complement a fully developed cultural context whose emphasis is more on key ideas than individuals. The author also pays close attention to how contemporary practitioners, commentators and beholders have talked about specific works, the nature of photography and the photographers changing role in society.

The Illustrated Milliner

A handbook of men's fashion includes wardrobe tips for the office, everyday life, outdoor recreational activities, and nightlife

It's said if you want to succeed, watch successful people and do what they do. Simply Irresistible is a humorous manual of case studies that show how the greatest sirens of history did what they did and got what they wanted, nearly all the time. Our role models--many of whom are still weaving their charms today-- include Eva Peron, Greta Garbo, Coco Chanel, Nigella Lawson, Angelina Jolie, Edith Piaf, Lucretia Borgia, Anne Boleyn, Mata Hari, and Jacqueline Kennedy Onassis. Simply Irresistible gives practical, sexy, and sometimes downright outrageous advice on modern seduction. It exalts the siren archetypes of the Companion, Competitor, Goddess, Mother, and Sex Kitten. The cheeky histories of the iconic real-life women are paired with a fun array of quizzes, quotes, photos, tongue-in-cheek captions, and personal stories of triumph and tragedy. (Mata Hari and Anne Boleyn were, after all, both executed.) The wisdom of these famous sirens is fleshed out with the contributions of everyday, lesser-known charismatic women. The conclusion? All women have an inner siren--the ability to bring men to their knees--just waiting to come out. Now they'll know how.

Blow the layers of dust off your 1940's mad scientist manuals. Remember when a rare disease could only be cured via spinal fluids that would render someone dead while saving another's life? Remember when beakers of colourful fluids frothed and bubbled until a super potion was brewed to (im)perfection? Remember when professors were barred from their universities for illegally experimenting on human subjects, to then become hell-bent on seeking their revenge? We do, and so do the authors of Barbwire Butterfly Books. Complete the picture with a haunted mansion or two, some creepy basements, and the most immoral proprietors and they're deceased (but undead) relatives you could ever hope NOT to meet. . . . and we have one amazing classic double feature for your enjoyment!

Handbook of Education, Training, and Supervision of School Psychologists in School and Community, Volume II

Ageless Secrets of Style

*Published with the sponsorship of the Trainers of School Psychologists, this two volume handbook examines the essential tenets of the school psychology profession, critically reviews training and practice issues, and evaluates how traditional and changing skills and issues translate into meeting the needs of children and the systems that serve them. Volume II extends the discussion of the training of school psychologists from Volume I to an examination of issues critical to the practice of school psychology, focusing on the roles of the supervisor as trainer in different contexts. Each chapter raises issues for university training in a manner that facilitates the dialogue between university and field trainers. This volume also considers issues of professional development, credentialing, and developing a professional identity, topics that predominate in practice settings yet are typically not addressed in any school psychology text. It concludes by offering recommendations on how the collaboration between university and field-based education can be further improved in the future to anticipate and meet the needs of the next generation of professionals and the children in their care.*

*In this poignant memoir, the internationally celebrated bandleader reflects on family, illness, grief, and a bygone era of glamour, contemplating not just his career but the history of midcentury music and nightlife--and the enormously important role that the bandstand played in his life. The internationally-famous bandleader Peter Duchin's six decades of performing have taken him to the most exclusive dance floors and concert halls in the world. He has played for presidents, kings, and queens, as well as for civil rights and cultural organizations. But in 2013, Duchin suffered a stroke that left him with limited use of his left hand, severely impacting his career. Days of recuperating from his stroke--and later from a critical case of Covid-19--inspired Duchin to reconsider his complicated past. His father, the legendary bandleader Eddy Duchin, died when Peter was twelve; his mother, Marjorie Oelrichs Duchin, died when he was just six days old. In the succeeding decades, Duchin would follow his father to become the epitome of mid-20th Century glamour. But it was only half a century later, in the aftermath of his sudden illnesses, that he began to see his mother and father not just as the parents he never had, but as the people he never got to know; and at the same time, to reconsider the milieu in which he has been both a symbol and a participant. More than a memoir, Face the Music offers a window into the era of debutantes and white-tie balls, when such events made national headlines. Duchin explores what "glamour" and "society" once meant, and what they mean now. With sincerity and humor, Face the Music offers a moving portrait of an extraordinary life, its disruptions, and revitalization.*
