*Understand Video Games as Works of Science Fiction and*

*Interactive Stories Science Fiction Video Games focuses on games*

*that are part of the science fiction genre, rather than set in magical milieux or exaggerated versions of our own world. Unlike many existing books and websites that cover some of the same material, this book emphasizes critical analysis, especially the analysis of narrative. The author analyzes narrative via an original categorization of story forms in games. He also discusses video games as works of science fiction, including their characteristic themes and the links between them and other forms of science fiction. Delve into a Collection of Science Fiction Games The beginning chapters explore game design and the history of science-fictional video games. The majority of the text deals with individual science-fictional games and the histories and natures of their various forms, such as the puzzle-based adventure and the more exploratory and immediate computer role-playing game (RPG). In the Retro Hugo Award–nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind’s largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. “Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master.”*

—Los Angeles Times

*The worldwide video game console market surpassed \$10 billion in 2003. Current sales of new consoles is consolidated around 3 major companies and their proprietary platforms: Nintendo, Sony and Microsoft. In addition, there is an enormous installed "retro gaming" base of Ataria and Sega console enthusiasts. This book,*

written by a team led by Joe Grand, author of "Hardware Hacking: Have Fun While Voiding Your Warranty", provides hard-core gamers with the keys to the kingdom: specific instructions on how to crack into their console and make it do things it was never designed to do. By definition, video console game players like to have fun. Most of them are addicted to the adrenaline rush associated with "winning", and even more so when the "winning" involves beating the system by discovering the multitude of "cheats" built into most video games. Now, they can have the ultimate adrenaline rush---actually messing around with the soul of the machine and configuring it to behave exactly as the command. This book builds on the motto of "Have Fun While Voiding Your Warranty" and will appeal to the community of hardware geeks who associate unscrewing the back of their video console with parachuting into the perfect storm. Providing a reliable, field-tested guide to hacking all of the most popular video gaming consoles. Written by some of the most knowledgeable and recognizable names in the hardware hacking community Game Console Hacking is the first book on the market to show game enthusiasts (self described hardware geeks) how to disassemble, reconfigure, customize and repurpose their Atari, Sega, Nintendo, Playstation and Xbox systems

Featuring new reviews of the latest games, this book explains everything a parent needs to know about America's most popular video game consoles: the PlayStation 2 and the revamped PlayStation One. This exhaustive guide offers parents different ways to cut through the hype with which games are marketed and clarifies the often-confusing video game ratings system. A gorgeous oversized hardcover collecting Kingdom Hearts art and trivia, leading up to the events of the most current entry in the beloved saga! Enter the magical worlds of Disney as featured in the hit game series! This tome meticulously showcases each of Kingdom Hearts' unique worlds, characters, and equipment, encompassing all the games predating Kingdom Hearts III. Explore character profiles from icons like King Mickey and Goofy, to modern favorites like Tron or Captain Jack Sparrow. Study detailed summaries of each game's story, along with rare concept designs and storyboards! No stone is left unturned in this grand overview, which includes content from: Kingdom Hearts Final Mix Kingdom Hearts Chain of Memories Kingdom Hearts 358/2 Days Kingdom Hearts II Final Mix Kingdom Hearts Coded Kingdom Hearts Birth by Sleep Kingdom Hearts 3D Dream Drop Distance Kingdom Hearts Unchained X Dark Horse Books, Square Enix, and Disney present Kingdom Hearts Ultimania: The Story Before Kingdom Hearts III. This original English translation of the Japanese fan favorite reference guide is sure to capture the imaginations of Disney fans and gamers everywhere!

The eighth episode of the incredible story of Final Fantasy. A legendary episode of the Japanese RPG, Final Fantasy VIII is fully decoded in this book. Discover a complete analysis of one of the most famous saga of the world of video games, embellished with a reflection on the report of the fans to the series. To read as soon as possible! EXTRACT

The work on Final Fantasy VIII began in 1997, just after Final Fantasy VII was completed, and the game's development ran concurrently with that of Parasite Eve. Although Final Fantasy VII marked a genuine turning point in the series, the designers were hardly lackadaisical when it came to the eighth episode's production and staging. In fact, they worked doubly hard to avoid disappointing fans after their adventure with Cloud. First, the decision was made to use the same console: the Sony PlayStation. Since the seventh episode was a smashing success, the major personalities who had presided over its creation were reassembled to create the new game. Thus, the team consisted of the renowned Hironobu Sakaguchi, Yoshinori Kitase (as director), Kazushige Nojima (as scriptwriter), Yûsuke Naora (as artistic director), and Tetsuya Nomura (as character designer). And, of course, the distinguished composer Nobuo Uematsu was once again chosen to create the episode's magnificent soundtrack in its entirety.

SPYRO is a go anywhere, real-time 3D fantasy adventure that casts the player in the role of a fire-breathing dragon named Spyro. You must journey through six enormous worlds to rescue your dragon pals and banish the evil-doer who froze them in their crystal state. Each crystal dragon that is liberated gives a clue as to how to proceed.

"[Ron Rosenbaum] is one of the most original journalists and writers of our time." –David Remnick  
In The Shakespeare Wars, Ron Rosenbaum gives readers an unforgettable way of rethinking the greatest works of the human imagination. As he did in his groundbreaking Explaining Hitler, he shakes up much that we thought we understood about a vital subject and renews our sense of excitement and urgency. He gives us a Shakespeare book like no other. Rather than raking over worn-out fragments of biography, Rosenbaum focuses on cutting-edge controversies about the true source of Shakespeare's

enchantment and illumination—the astonishing language itself. How best to unlock the secrets of its spell? With quicksilver wit and provocative insight, Rosenbaum takes readers into the midst of fierce battles among the most brilliant Shakespearean scholars and directors over just how to delve deeper into the Shakespearean experience—deeper into the mind of Shakespeare. Was Shakespeare the one-draft wonder of Shakespeare in Love? Or was he rather—as an embattled faction of textual scholars now argues—a different kind of writer entirely: a conscientious reviser of his greatest plays? Must we then revise our way of reading, staging, and interpreting such works as Hamlet and King Lear? Rosenbaum pursues key partisans in these debates from the high tables of Oxford to a Krispy Kreme doughnut shop in a strip mall in the Deep South. He makes ostensibly arcane textual scholarship intensely seductive—and sometimes even explicitly sexual. At an academic “Pleasure Seminar” in Bermuda, for instance, he examines one scholar’s quest to find an orgasm in Romeo and Juliet. Rosenbaum shows us great directors as Shakespearean scholars in their own right: We hear Peter Brook—perhaps the most influential Shakespearean director of the past century—disclose his quest for a “secret play” hidden within the Bard’s comedies and dramas. We listen to Sir Peter Hall, founder of the Royal Shakespeare Company, as he launches into an impassioned, table-pounding fury while discussing how the means of unleashing the full intensity of Shakespeare’s language has been lost—and how to restore it. Rosenbaum’s hilarious inside account of “the Great Shakespeare ‘Funeral Elegy’ Fiasco,” a man-versus-

computer clash, illustrates the iconic struggle to define what is and isn't "Shakespearean." And he demonstrates the way Shakespearean scholars such as Harold Bloom can become great Shakespearean characters in their own right. The Shakespeare Wars offers a thrilling opportunity to engage with Shakespeare's work at its deepest levels. Like Explaining Hitler, this book is destined to revolutionize the way we think about one of the overwhelming obsessions of our time.
